- Available districts are based on user calendar rights.

Data Certification Workflow

The [Data Event Certification Workflow \(State Edition\)](#) article provides a simplified version of the state-level data certification workflow.

Generate the Event Report

1. Select the **School Year**. Only events and districts within this school year are available.
2. Select the **Data Certification Event Name**. This is the event reporting district certification statuses.
3. Select the **District Event Status(es)**. Only selected districts with this status(es) for the event selected will report.
4. Mark the **Include Secondary Users** to display event statuses for secondary event users.
5. Select which district(s) to view event status information.
6. Select the desired **Report Format** (DOCX or PDF).
7. Click the **Generate Report** button. The report will appear in a separate window in PDF format.

The Event Report is divided into three sections: the Header, the State Detail, and the District Detail.

Header

The header describes event details and the event status(s) being reported.
