

New Mexico Ed-Fi Checklist for Starting the 2025-2026 School Year

Last Modified on 10/10/2025 12:25 pm CDT

Tool Search: Ed-Fi

This article describes the steps you should take in order to properly move Ed-Fi to the 2025-26 school year. This article also contains general recommendations for processes to complete at the beginning of the school year.

Step 1. Update to the most recent version of Campus

In order to have the schema and logic in place, it is critical you update to the most recent version of Campus. **Failure to do this will result in an inability to properly report data for the current school year.**

Step 2. Create a New Ed-Fi Configuration for 2025-26

You will need to create a new Ed-Fi configuration for the 2025-26 school year.

Client Secret *

Test Connection

Connection Detail

To do this:

- Navigate to the Ed-Fi Connection Configuration tool (*Reporting > Ed-Fi > Configuration > Connection*).
- Select **New**.
- Select the **Connection Type**, options are Core or State.
- Enter a **Connection Name**.
- Select a **School Year**.
- Enter the following values:

Field	Value
Ed-Fi Connection Type	State

Field	Value
O-Auth URL	https://edfi.ped.state.nm.us/v6.2.0_NM_Production/WebApi/
API URL	https://edfi.ped.state.nm.us/v6.2.0_NM_Production/WebApi/
Post-Amble	data/v3/
Timeout in Seconds	This field defaults to a value of 60 seconds and determines (in seconds) the amount of time allowed to pass before the connection between Campus and Ed-Fi is considered timed out and Ed-Fi events are not processed. These Ed-Fi events are then re-processed the next time a quartz job runs.
Client Key	The Client Key will be provided by the New Mexico Department of Education.
Client Secret	The Client Secret will be provided by the New Mexico Department of Education.

- If desired, a certificate can be imported for the Ed-Fi configuration. For more information, please see the **'Import Certificates'** section of the [Ed-Fi Configuration article](#).
- Click the **Save** button.

Step 3. Set Ed-Fi Tool Rights

Set the Ed-Fi Tool Rights via User Management > User Accounts > Tool Rights.

Review the [Ed-Fi Tool Rights article](#) for more information.

Step 4. Add Ed-Fi School ID

In order to send data in Ed-Fi, the 'School' needs an Ed-Fi School ID. For the Administration Office, enter the District Entity ID in the Ed-Fi School ID field if not previously done.

The screenshot shows the 'School Detail' form with the following fields and values:

- *Name:** Administration Office
- *State School Number:** 000
- NCES School Number:** [Empty]
- Standard Code (SIF StatePrid):** [Empty]
- Site Classification:** 0: Central Office (dropdown)
- CEEB Number:** [Empty]
- Ed-Fi School ID:** 01234567 (highlighted with a red box)
- Grade Type:** [Empty]
- Course Catalog - Master List:** [Empty]
- *Phone:** [Empty]
- External LMS Exclude:** ☐ Exclude

School Detail

Step 5. Set Resource Preferences

Set all Resources to 'Off' and map the Ed-Fi Codes to Campus Codes via the Resource Preferences in Reporting > Ed-Fi > Configuration > Resource Preferences. Some Resource Preferences are auto-mapped and do not need to be set.

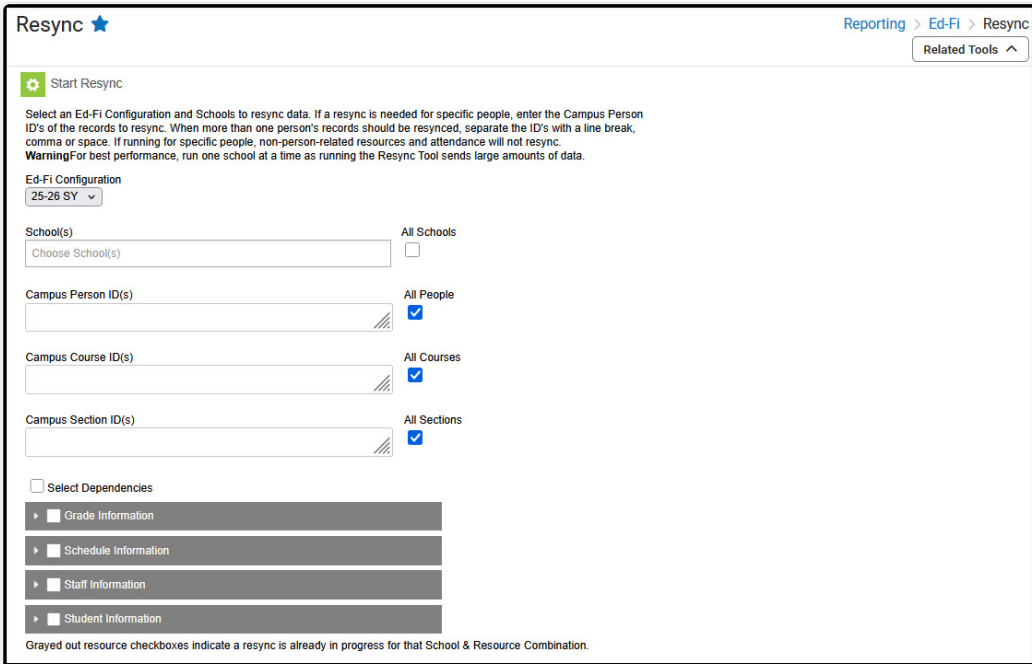

Step 6. Toggle Resource Preferences to On

Toggle Resources to 'On' in Resource Preferences in Reporting > Ed-Fi > Configuration > Resource Preferences once all data setup is complete.

Step 7. Perform an Ed-Fi Resync for the Scope Year

Now that the Ed-Fi configuration is in place and data has been properly reviewed, an ordered resync should be completed as the first resync of the year. This is completed using the Resync tool.

For detailed information about this process, please see the [Resync \(Ed-Fi\) article](#). Resyncing will generate a large volume of items in your event queue, so it may be helpful to plan your resync for an off-peak time period and resync in groups of calendars rather than all calendars.

Resync ★

Reporting > Ed-Fi > Resync

Related Tools ^

Start Resync

Select an Ed-Fi Configuration and Schools to resync data. If a resync is needed for specific people, enter the Campus Person ID's of the records to resync. When more than one person's records should be resynced, separate the ID's with a line break, comma or space. If running for specific people, non-person-related resources and attendance will not resync.
Warning For best performance, run one school at a time as running the Resync Tool sends large amounts of data.

Ed-Fi Configuration
 25-26 SY

School(s) Choose School(s) ☐ All Schools

Campus Person ID(s) ☒ All People

Campus Course ID(s) ☒ All Courses

Campus Section ID(s) ☒ All Sections

☐ Select Dependencies

- ☐ Grade Information
- ☐ Schedule Information
- ☐ Staff Information
- ☐ Student Information

Grayed out resource checkboxes indicate a resync is already in progress for that School & Resource Combination.

Resync

To do this:

1. Navigate to the Resync tool (*Reporting > Ed-Fi > Resync*).
2. Select the appropriate **Configuration**.

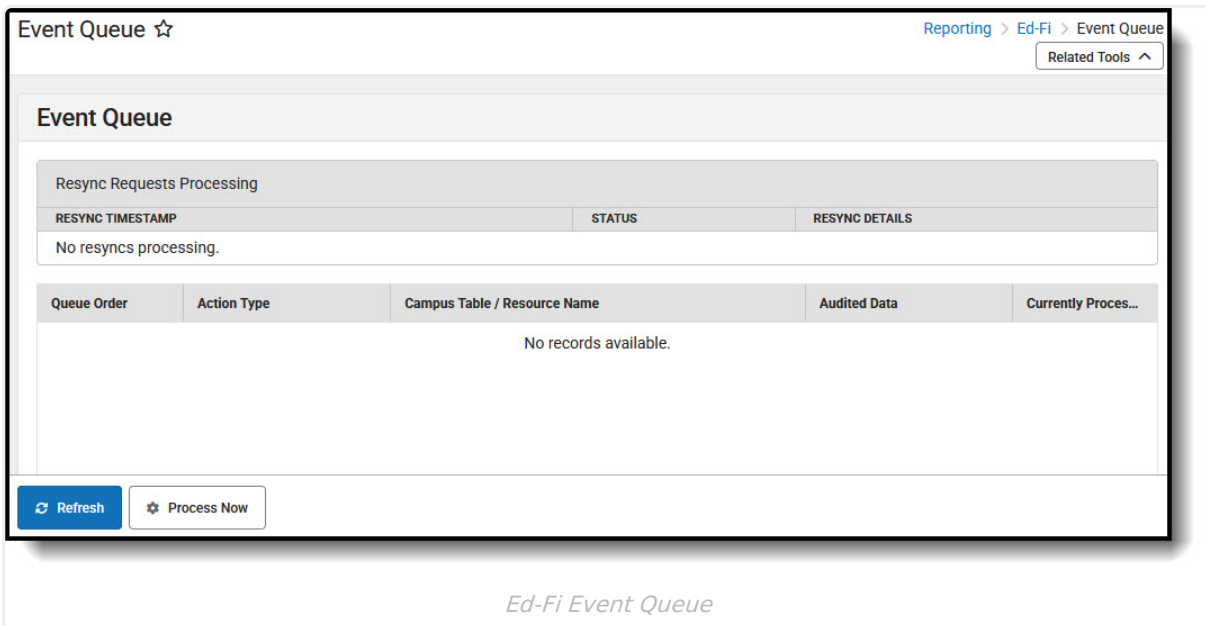

3. Select the resources to resync.

Campus highly recommends using the order of resync detailed on the [New Mexico Recommended Resync Page](#).

4. Once data sets have been marked and you are ready to resync, select the **Start Resync** button.

Step 8. Review the Event Queue.

Navigate to the Event Queue (*Reporting > Ed-Fi > Event Queue*). Wait until all records have been processed in the Event Queue (when it reads “0 records total” as seen below). Once there are no events in the Event Queue, turn off all Resource Preferences.

The screenshot shows the 'Event Queue' interface. At the top, there is a breadcrumb trail: 'Reporting > Ed-Fi > Event Queue'. Below this, there is a 'Related Tools' button. The main heading is 'Event Queue'. Underneath, there is a section titled 'Resync Requests Processing' with a table that has columns 'RESYNC TIMESTAMP', 'STATUS', and 'RESYNC DETAILS'. The table is empty, with the text 'No resyncs processing.' displayed below it. Below this, there is another table with columns 'Queue Order', 'Action Type', 'Campus Table / Resource Name', 'Audited Data', and 'Currently Proces...'. This table is also empty, with the text 'No records available.' displayed in the center. At the bottom left, there are two buttons: 'Refresh' and 'Process Now'.

Step 9. Review the Error Log

Navigate to the Error Log (*Reporting > Ed-Fi > Error Log*). Review the Error Log and note any errors that exist. When you feel like you’ve addressed all of the underlying causes for the errors, click “Archive All Entries” on the Error Log tab (which will remove them from the list) and return to **Step 7**, retrying the resync of data.
