

Messenger Activity Report Tool Rights

Last Modified on 12/10/2025 2:19 pm CST

The Messenger Activity Report provides message usage information by school, sender and message type based on selected criteria.

See the [Messenger Activity Report](#) article to learn more about how this tool is used.

The screenshot shows the 'Messenger Activity Report' tool interface. At the top, there's a green header with the 'Infinite Campus' logo, a search bar, and navigation icons. Below the header, the title 'Messenger Activity Report' is displayed with a star icon. A breadcrumb trail shows 'Communication > Messenger Administration > Messenger Activity Report'. A blue bar highlights 'Messenger Activity'. Below this, a text box explains: 'Messenger Activity Report provides total counts of delivery devices selected and usage information by school, sender and message type based on criteria selected.' The main area contains several filters: 'Date Option' with radio buttons for 'Scheduled' (selected) and 'Created'; 'Date Range' with 'Start Date' (01/01/2020) and 'End Date' (02/18/2020) fields; 'District / School' and 'Sender' dropdown menus; 'Message Type' and 'Message Status' dropdown menus; 'Group By' radio buttons for 'District / School' (selected), 'Message Type', and 'Sender'; and a 'Report Format' dropdown set to 'PDF'. A 'Generate Report' button is at the bottom.
