Lockers - Locker Setup Tool Rights

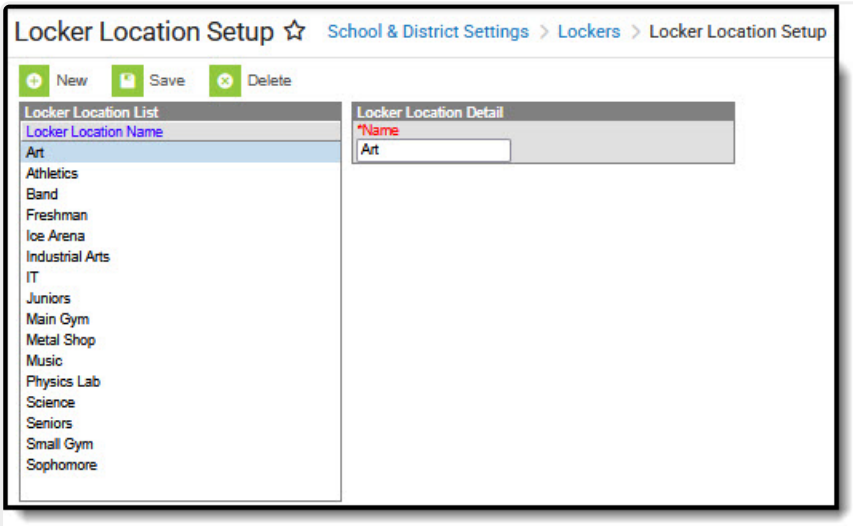
Last Modified on 12/08/2025 2:04 pm CST

The **Locker Setup** tools are used to define elements used to manage and assign lockers in a school.

To learn how to use these tools, see the articles in the Lockers category.

Locker Location Setup

The **Locker Location Setup** tool is used to build a list that describes areas in a school where lockers exist.



Locker Location Setup

Available Tool Rights - Locker Location Setup

R	W	A	D
View existing locker locations.	Edit existing locker locations.	Add new locker locations.	Delete locker locations.

Locker Setup

The **Locker Setup** tool is used to define and manage details about lockers that can be assigned to students. Note that **Location** and **Lock Type**, which are the other two tools mentioned in this article, are elements used in Locker Setup.

View existing lock information.	Edit existing lock information.	Add new lock information.	Delete lock information.

Related Tools That Use Elements Defined Via Locker Setup Tools:

- Lockers (Student): Manage locker information for an individual student.
- Lockers (Instruction): Teachers can view or manage locker assignments for students in course sections they teach.
- Locker Schedule Wizard: Mass assign lockers to students

Suggested User Groups

Typically, users of this tool have already been assigned one or more Product Security Roles that grant administrative-level access; therefore, a user group assignment is not necessary.

If your district's needs are different, you may choose to create a group that meets those needs.

See User Groups and Suggested Roles for more information.
