Tool Search: Homeless

The Homeless tool records basic homeless information. The list of homeless records is sorted by Start Date.

"Homeless" is defined as children and youth who lack a fixed, regular, and adequate nighttime residence. This includes students who are sharing the housing of other persons due to a loss of housing, economic hardship, or similar reason; living in motels, hotels, trailer parks, or campgrounds due to a lack of alternative adequate accommodations; living in emergency or transitional shelters; or being abandoned in hospitals. The definition includes migratory students.

See the core Homeless article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Homeless records.
