

Pivot Designer Tool Rights

Last Modified on 08/20/2025 10:42 am CDT

The **Pivot Designer** allows users such as school administrators to use available student data analysis options to create pivot charts and tables.

See the [Pivot Designer](#) article to learn how to use this tool.

Data Analysis Pivot Designer

The Pivot Designer allows users to create a pivot chart/table using one of the available analysis options for student data and creates manipulative results that can be modified on a regular basis.

Pivot tables will appear in spreadsheet format. Information on the tables can be exported into CSV, HTML or as an image.

Note the following:

- * Campus toolbar selections determine the students included in the pivot chart/table results.
- * Students marked as No Show are not included.
- * Students marked as State Exclude are included.

Saved Pivots

- *Assessment Results - MCA III Math
- *Assessment Results - NWEA
- *Attendance Unexcused Code Analysis
- *Behavior Events by Grade
- *District Wide Student Demographics
- *Grades Analysis - 12th Grade T3
- Grade distribution
- Health Office Visits Analysis
- Reading MCA/MAP
- Administrators

*Behavior Events by Grade
