

Civil Rights Data Collection (CRDC) Tool Rights

Last Modified on 08/29/2025 7:47 am CDT

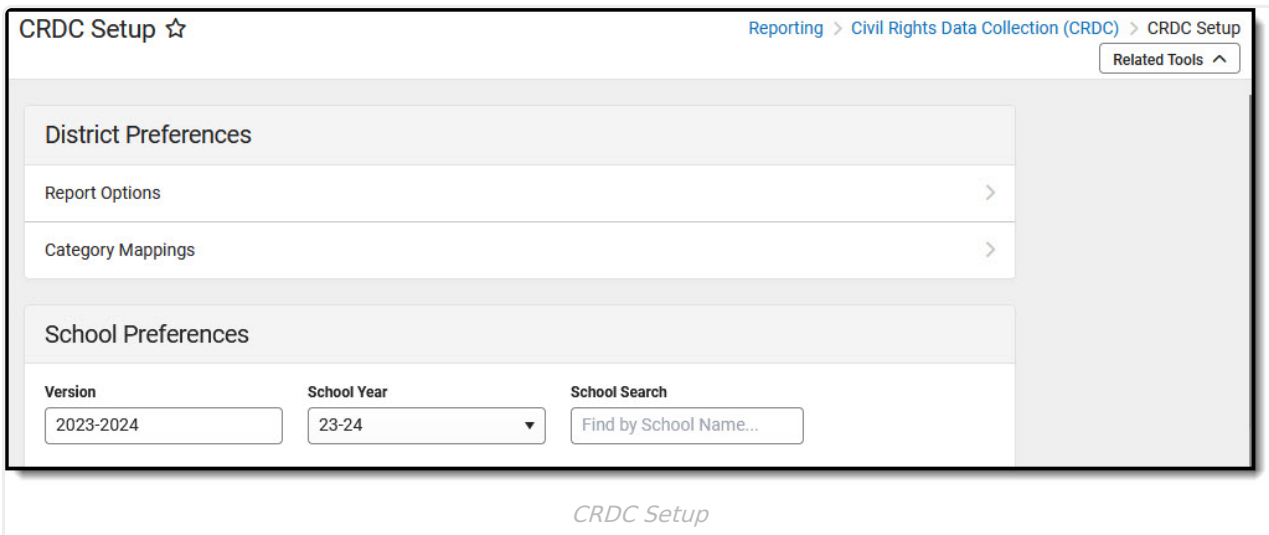

The Civil Rights Data Collection (CRDC) conducted by the U.S. Department of Education collects data on key education and civil rights issues in our nation's public schools. The CRDC collects a variety of information regarding student enrollment, educational programs and services, race/ethnicity, English Learners, sex, and disability.

This article defines CRDC tool rights. Staff involved in this process may also need rights to create Ad hoc Filters in order to obtain the data they need to submit.

To learn about the CRDC process and how data is collected and submitted, start with the [Civil Rights Data Collection \(CRDC\) - Getting Started](#) article. Follow the links in the workflow to step through the entire process.

CRDC Setup Tool

The Civil Rights Data Collection (CRDC) Setup tool allows districts to complete category mappings for each school for grade levels, students in subgroups (IDEA, 504, EL etc.), and courses. Users are able to capture all SIS related data elements required to report for submission. Users are also able to generate reports to match the CRDC data collection templates.

The screenshot shows the 'CRDC Setup' tool interface. At the top, there is a breadcrumb trail: 'Reporting > Civil Rights Data Collection (CRDC) > CRDC Setup'. A 'Related Tools' button with an upward arrow is located in the top right corner. The main content area is divided into two sections: 'District Preferences' and 'School Preferences'. Under 'District Preferences', there are three expandable items: 'Report Options', 'Category Mappings', and 'School Preferences'. The 'School Preferences' section is currently expanded, showing three input fields: 'Version' (with a dropdown menu set to '2023-2024'), 'School Year' (with a dropdown menu set to '23-24'), and 'School Search' (with a text input field containing 'Find by School Name...'). The 'CRDC Setup' title is also visible at the bottom of the interface.

CRDC Generate Survey Results

The Civil Rights Data Collection (CRDC) Setup tool allows districts to generate survey results based on the CRDC Category Mappings for the current reporting period.

Suggested User Groups

Create and assign user groups as appropriate for the way your district staff follows the CRDC submission process. For example, you may need a group with full rights to the CRDC tools and you may already have Ad hoc user groups that users can be assigned to for CRDC submission purposes.
