Tool Search: SIRS Extracts

The SIRS Student Infraction Response extract reports disciplinary removal data for all students with disabilities.

The screenshot shows the 'SIRS Extracts' tool interface. At the top, there's a breadcrumb trail: 'Reporting > NY State Reporting > SIRS Extracts'. Below this is a header 'NY State Repository System Extracts'. A note states: 'This tool will extract student data for SIRS data collection. Choose CSV format when uploading to SIRS, otherwise choose one of the testing/debugging formats.' The interface is divided into two main sections: 'Extract Options' and 'Select Calendars'. In 'Extract Options', there are fields for 'Extract Type' (set to 'Student Infraction Response'), 'Start Date', 'End Date', 'Format' (set to 'State Format(CSV)'), and 'Column Headers' (set to 'Exclude'). There are buttons for 'Generate Extract' and 'Submit to Batch'. In 'Select Calendars', there's a question 'Which calendar(s) would you like to include in the report?' with three radio button options: 'active year' (selected), 'list by school', and 'list by year'. Below these options is a list box showing '25-26' and '25-26 Scarsdale High School'.

## Extract Editor Fields

Field	Description
<b>Extract Type</b>	<p>The name of the SIRS extract generated. This would be Student Infraction Response.</p> <p>See the <a href="#">Report Layout</a> section of this article for additional information.</p>
<b>Calendar Selector</b>	<p>Identifies which Calendar(s) are included in the report. Calendars can be sorted by active year, school, or year. The default is the Calendar selected in the Campus Toolbar. At least one Calendar is required to generate the report.</p>

Field	Description
<b>Start Date</b>	The first day on which data is reported.
<b>End Date</b>	The last day on which the data is reported.
<b>Format</b>	The format in which the report generates. Options are State Format (CSV) or HTML.
<b>Ad Hoc Filter</b>	Limits the report results to students included in a pre-saved Ad hoc Filter. The Ad hoc Filter selection becomes available when the Ad Hoc Filter radio button is marked. See the <a href="#">Filter Designer</a> article for additional information.
<b>Column Headers</b>	Allows users to select whether to include or exclude the column headers.
<b>Generate Extract</b> or <b>Submit to Batch</b>	Users have the option of submitting a report request to the batch queue by clicking <b>Submit to Batch</b> instead of immediately generating the report by clicking <b>Generate Extract</b> . The batch process allows larger reports to generate in the background without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the <a href="#">Batch Queue</a> article.
