Sharing curriculum to the Curriculum Library makes the curriculum available for other teachers to [use in their classes](#). Curriculum is shared at the [folder](#) level. Individual assignments and resources cannot be shared to the library at this time.

The screenshot shows the Infinite Campus interface. At the top, the header bar includes the Infinite Campus logo, a search icon, and user information for '23-24 Harrison High'. Below the header, the main navigation bar shows 'Classroom', 'Curriculum', 'Students', and 'Grades'. The 'Curriculum' tab is active, displaying a list of curriculum items. The first item, '1) 3600-4 AP Literature (Daily)', is selected. A red box highlights the 'Share' button in the top right corner of the curriculum list. A red arrow points from this button to the 'Curriculum Library Share' dialog box. The dialog box is titled 'Curriculum Library Share' and 'To Kill a Mockingbird'. It contains a message: 'Shared curriculum will be available to teachers in my district in the Curriculum Library.' Below this, there are fields for 'Name' (To Kill a Mockingbird), 'Description' (This folder contains curriculum for To Kill a Mockingbird, with lesson plans for lectures and assignments for reading checks, character exercises, and two essays.), 'Grade Levels' (10, 11), 'Subjects' (English Language and Literature), and 'Standards' (1 standards). There are also buttons for 'Share' and 'Cancel'.

Click the Share button to enter details and share a folder of curriculum.

To share curriculum, teachers need the *Enhanced Curriculum* tool right, the *Curriculum Library District Share* tool right, and rights to at least one of the following grading tools: Grade Book, Planner, Progress Monitor.

Curriculum you shared is indicated in the Library.

When you share curriculum, the version in the library is separate from the one you have. Changes you make to your curriculum will not be reflected in the version in the library. Likewise, when teachers use your curriculum from the library, any changes they make do not affect the library version.

Update Shared Curriculum

Currently, the only way to update shared curriculum is to make changes to your version and then share again. Remove the version you shared previously to make sure other teachers are finding the most up-to-date version.

Remove Curriculum

1. Open the Curriculum Library and locate your curriculum. The **Only Curriculum Shared By Me** filter in the Add Filters menu may be helpful in finding your curriculum.
2. Click the  button.
3. In the message that displays, indicate if you want to **Remove Folder and Resources**, which removes the folder and anything inside it, or **Remove Folder**, which only removes the folder - any curriculum within the folder would no longer be grouped together. In the future, items would have to be removed individually.
4. Once you choose an option, curriculum is removed from the library.

Removing content removes it from the library, but teachers who have added it from the library still have access to their own versions. Likewise, you'll still have the original version of the curriculum you shared in your Curriculum List.
