Release notes provide the applicable personnel the ability to review enhancements, modifications, and regulated changes prior to accepting an update. It is advised that users review the release notes carefully and alert appropriate district staff to changes in Campus.

The Release Information (https://kb.infinitecampus.com/help/release-information) article lists the approximate release date of all Campus releases. See the Rx Pack - Campus.2539 (https://kb.infinitecampus.com/help/rx-pack-campus2539) article for a list of Rx releases to the Campus.2539 release pack. Questions or concerns regarding an update should be directed to Campus Support. Technical Information

See the Technical Information - Release Pack Campus.2539 (https://kb.infinitecampus.com/help/technical-information-release-pack-campus2539) article for a list of schema changes in this release.

Academic Planning

Single Apostrophe in Names Prevents Academic Plan Progress Report Generation (SIS-178441)

A single apostrophe in user group names or person names prevented the Academic Plan Progress report from being generated. This has been corrected.

Path: Student Information > Program Administration > Academic Plan Progress Batch Report

Activity Registration

Field Trip Activity Updates (SIS-189921) **[Enhancement]**

Field trips have been updated to better align with other activity (https://kb.infinitecampus.com/help/activity-

monitor) types, and students are no longer automatically added to the roster when a field trip is created. Additional features have also been added:

- Removed Students List
- Transfers
- Waitlist

Path: Student Information > Activity Registration > Activity Monitor

Activity Registration & School Store Maintenance (SIS-192371)

The following updates have been made to the Activity Registration (https://kb.infinitecampus.com/help/student-information-activity-registration) and School Store (https://kb.infinitecampus.com/help/school-store) tools:

- Resolved an issue with the View Removed button showing incorrectly in Activity Registration.
- Resolved an issue with Document Upload in Activity Registration.

Path: N/A

Assessments

Validations After Modifying Step 2 (SIS-191691)

Validations were updated to ensure proper step progression in the Assessment Center (https://kb.infinitecampus.com/help/assessment-center):

- Steps 4 and 5 are now disabled after modifying Step 2.
- Users must revisit Step 3 before accessing Steps 4 and 5.

The validation update applies to any changes made in Step 2, including:

- File uploads
- "Source File Includes Header"
- "Which fields will map to student identifiers?"

Path: Student Information > Assessment Administration > Assessment Center

Test Importer Performance Improvement (SIS-192115) **[Enhancement]**

Implemented changes to optimize the speed and overall performance of the test import functionality (https://kb.infinitecampus.com/help/assessment-score-data-import) in the Assessment Center.

Path: Student Information > Assessment Administration > Assessment Center

Campus Instruction

Categories Redesign (SIS-178714) **[Enhancement]**

The Categories (https://kb.infinitecampus.com/help/categories) tool has been updated to improve the visual design and accessibility of the tool. Functionality of this tool has not changed.

Path: Instruction > Grades > Grade Book > Settings > Categories

Classroom Context - All Years/All Schools (SIS-181960)

Previously, an error occurred when viewing Instruction tools with Classroom (https://kb.infinitecampus.com/help/classroom-instruction) turned on when the context was set to All Years and All Schools. This has been corrected.

Path: Instruction

Curriculum - Other Sections (SIS-183142)

When an assignment is assigned to multiple sections, those sections are listed in the Other Sections area of the assignment (https://kb.infinitecampus.com/help/assignments-resources). Logic has been updated so that when a teacher clicks a section in that area, the section context at the top of the screen is updated to that section.

Path: Instruction > Curriculum > Curriculum List > open an assignment > Other Sections > click an assignment

Curriculum Copier Validation (SIS-186759)

The Curriculum Copier (https://kb.infinitecampus.com/help/curriculum-copier) has been updated to restore previous logic when copying curriculum to a destination section that has no tasks/standards aligned, or no tasks/standards in common with the source section. In either of these scenarios, the assignments are now copied as Resources, with Grading toggled off.

Path: Instruction > Grades > Grade Book > Settings > Curriculum Copier

Reassign to Student Issue (SIS-191960)

Previously, an error occurred when attempting to reassign (https://kb.infinitecampus.com/help/scoring-submissions) a submission assignment to more than one student. This has been corrected.

Path: Instruction > Overview > Teaching Center > Score > Reassign

Curriculum Term Dates (SIS-192226) **[Enhancement]**

The Term filters in the Curriculum tool (https://kb.infinitecampus.com/help/curriculum-list) have been updated so that any curriculum that is in progress during the selected term is included in the list. For example, if an assignment has a Start Date in Term 1 and an End Date in Term 3, if the Curriculum List is filtered to Term 2, that assignment is included in the list.

Path: Instruction > Curriculum > Curriculum List

Campus Learning

New! My Curriculum (SIS-186879) **[Enhancement]**

A new tool called My Curriculum (https://kb.infinitecampus.com/help/my-curriculum-start-here) has been added to Instruction. This tool allows teachers to create folders, assignments, and resources outside of the context of a section. Teachers can build out curriculum, with content, quizzes, etc, and then add it to their sections later. From My Curriculum, teachers can add curriculum to individual or multiple sections at a time.

Benefits of My Curriculum:

- Teachers don't have to worry about dates when creating curriculum. They can create the curriculum and then schedule it into sections later.
- My Curriculum provides a workshop area where teachers don't have to switch between section contexts or worry about draft curriculum being visible to students.

The Enhanced Curriculum tool right grants access to My Curriculum. This tool does not currently allow teachers to add curriculum from their sections into My Curriculum, or from My Curriculum directly into the Curriculum Library, but these features will be available in the coming months.

The Curriculum Import (https://kb.infinitecampus.com/help/import-curriculum), which is currently in a limited beta release, has been moved to the My Curriculum tool. Teachers with access to the Curriculum Import can import curriculum into My Curriculum and edit it prior to adding it to their sections and making it visible. To accommodate this new tool, the My Curriculum and Other Curriculum views in the Planner have been renamed to My Planner (https://kb.infinitecampus.com/help/my-curriculum-planner) and Other Planners (https://kb.infinitecampus.com/help/other-planners).

Path: Instruction > Curriculum Planning > My Curriculum

Matching and Ordering Quiz Questions (SIS-192129) **[Enhancement]**

Matching and ordering quiz question types (https://kb.infinitecampus.com/help/quiz-question-types) have been updated to include rich text editors for answer options, allowing teachers to enter images and formatted text.

Path: Instruction > Curriculum > Curriculum List > new > Quiz

Scoring Submissions - Submitted By (SIS-192174) **[Enhancement]**

If a teacher clicks View Submissions (https://kb.infinitecampus.com/help/scoring-submissions) in the submission scoring screen, a new Submitted By column in the table of submissions displays the name of the submitter if it was someone other than the student.

Path: Instruction > Overview > Teaching Center > Score > View Submissions

Opening Google Drive Files (SIS-192305)

As a result of a recent update, teachers, students, and parents were unable to open Google Drive files. This has been corrected.

Path: Instruction, Campus Student, Campus Parent

Campus Student/Parent

Campus Student - Pinning Quiz Instructions (SIS-189914) **[Enhancement]**

An option has been added for students taking quizzes that allows them to pin page-level Instructions to the top of the screen, so they can scroll through questions while keeping the Instructions visible.

Path: Campus Student > open a quiz assignment > Pin Instructions

Account Linking - Login as User (SIS-191133) **[Enhancement]**

When Account Linking (https://kb.infinitecampus.com/help/linking-campus-studentparent-accounts-ongoing) is enabled for a state, if an admin logs into a parent's account using the 'Login as User' feature, they did not see the Manage Districts tool for data privacy reasons. Logic has been updated so that admins can see the Manage Districts tool but not information about any linked accounts. This change gives admins a better understanding of what parents and students see.

Path: Campus Student/Parent > user menu > Manage Districts (https://kb.infinitecampus.com/help/account-linking-campus-student-campus-parent)

Campus Student - File Attachments (SIS-191858)

Previously, students were unable to access files attached to assignments in the Andoird and iOS versions of the app. For Android devices, users could not open the file. For iOS devices, users could open the file but then could not close it. Both of these issues have been corrected.

Path: Campus Student > Assignments > open a file attachment

Classroom Integrations

OneRoster Sequence Cache Refresh (SIS-191359)

The OneRoster sequence cache (https://kb.infinitecampus.com/help/oneroster-cache)refresh logic has been updated to use the configured query timeout value when not set to the default time of 120 minutes.

Path: No specific path

OneRoster - DistrictID and Identity Records (SIS-191559)

OneRoster logic has been updated so that the districtID no longer needs to match the current district for identity records to return demographics data. The system instead relies on the currentIdentityID value of the Person record to return the correct identity. This change was made to address an issue with missing records.

Path: No specific path

OneRoster Performance Improvement (SIS-191671)

Optimized the query for retrieving user roles in OneRoster, significantly improving performance for large datasets. This change addressed timeout issues when accessing OneRoster users endpoint with various limits in school-scoped connections

Path: No specific path

OneRoster Cache - Class Code (SIS-192037)

The OneRoster cache (https://kb.infinitecampus.com/help/oneroster-cache)has been updated to improve handling of null values.

Path: No specific path

OneRoster Connections - Identity Management and Secondary Email (SIS-192080) **[Enhancement]**

The Digital Learning Applications Configuration (https://kb.infinitecampus.com/help/configuring-oneroster-connections) tool has been updated so that if Identity Management is enabled for a connection, the option to Use Secondary Email will be disabled.

Path: Instruction > Settings > Digital Learning Applications Configuration

LTI 1.3 - Required Fields (SIS-192149) **[Enhancement]**

The Digital Learning Applications Configuration tool has been updated so that all four URL fields are now required for LTI 1.3 (https://kb.infinitecampus.com/help/configuring-lti-connections-13) connections.

Path: Instruction > Settings > Digital Learning Applications Configuration

Combine Person

Combine Person Wizard Erroring on State Edition (SIS-191430)

The Combine Person Wizard was erroring out on State Editions of Campus, preventing users from using the tool. This issue was corrected.

Path: System Settings > Data Utilities > Combine Person Wizard

Cross-Site Enrollment

Cross-Site Enrollment - Interdistrict Functionality Available (SIS-192343) **[Enhancement]**

Interdistrict functionality for Cross-Site Enrollment tools is now available for several states. Consult the Is Cross-Site Enrollment Available in My State? (https://kb.infinitecampus.com/help/is-cross-site-enrollment-available-in-my-state) article to see if your state is on the list.

For states where the Interdistrict column is blank (e.g., not populated with Campus.2539), additional updates are needed before this functionality can be turned on and will be included in future releases.

With this update, additional tool rights were made available for the following:

- Grading & Standards > Cross-Site Mapping
- Cross-Site Enrollment

North Carolina - LCS Extracts Workflow Update, New Columns Added (SIS-187968)

The following updates have been made to the LCS Extracts:

District Edition Extract Editor

- The Report Options section of the Extract Editor was modified to become a semi-guided workflow for the user to select their report preferences.
- The field 'Violation Type' is now only available when the new Report Type of 'Class Size Violations' has been selected.
- Effective Date is now Read Only when the Snapshot Period of 'Fall' or 'Spring' has been selected.

State Edition Extract Editor

- Updates were made to align with the Official Submissions options that the State can review. Previously, there were options the user could select, but those options didn't do anything.

Report Updates

- The Official Submission reports now have an added column to display 'Effective Date.'

See the LCS Extract articles on the Knowledge Base for detailed reporting logic.

Path: Reporting > NC State Reporting > NC LCS Collection

North Carolina - LCS Multiple Calendar Selection (SIS-187979)

The LCS Collection now allows the selection of multiple calendars.

For District Level Users:

Oklahoma – Transportation Updates (SIS-191594)

The new Student Transportation tool has been localized for Oklahoma to include a State Reporting section.
There will be a gap between when Oklahoma state reporting logic is being updated and when Transportation 2.0 is released. This means that enabling the new module before taking the planned RX will cause state reporting errors for Transportation and other state reports. Once you switch it on, you cannot revert. We are advising Oklahoma Districts **not** to enable the Transportation 2.0 module until after the state reporting logic has been vetted, tested, and the

planned RX is released.
