

Instruction Settings Tool Rights

Last Modified on 09/24/2025 3:27 pm CDT

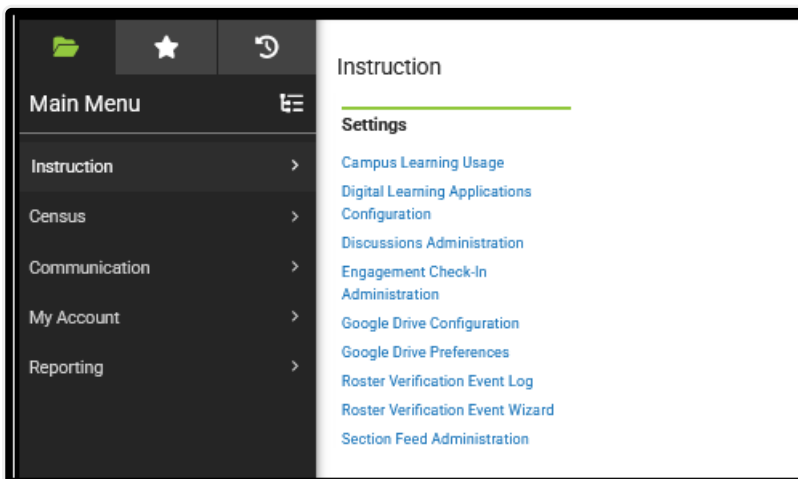

Campus Instruction is designed to provide teachers with all of the tools needed to manage classrooms and instruction effectively. Some of the basic features include managing daily tasks, defining account settings, viewing the roster, creating seating charts, taking attendance, and sending class messages.

Unlike other areas of Campus, access to most tools is "on or off." Marking the ALL checkbox assigns full access to that tool. Some tools use the standard Read, Write, Add, and Delete settings.

Additional tools are available for districts that use Campus Learning.

See the [Instruction](#) component for information on these teacher-focused tools.

The image below displays all tools available when full access to Instruction is assigned to a teacher.

Instruction Settings Tools

Tools with All Rights
