Academic Planning

Academic Planning - Future Planned Course Showing as Earned (SIS-177071)

Resolved an issue where future planned courses without a Term value were incorrectly displayed as Earned in Academic Planning.

Path: Student Information > Academic Planning

Core Academic Program Assign and Status to include Inactive Students and End Dated Programs (SIS-190358) **[Enhancement]**

In order to accommodate the need to identify students who have completed all requirements for any CTE program, including inactive students and students who are not currently assigned to a program they have completed requirements for, the following enhancements have been made:

Course Plan Administration (https://kb.infinitecampus.com/help/course-plan-admin) - Update Student Status:

- Added ability to include All Calendars for the selected context year
- Added option to include end dated programs
- Added option to include inactive students

The Batch Program Assignment Wizard (https://kb.infinitecampus.com/help/batch-program-assignment-wizard) now has the option to include inactive students with completed requirements in the selected context year.

Path: Student Information > Program Administration > Course Plan Update

Path: Student Information > Program Administration > Batch Program Assignment Wizard

State Edition - No GUIDs for Program Criteria: Causes Duplicate Program Criteria When the Name is Changed and Published (SIS-192971)

Changing the name of an existing Program Criteria at the State Edition level and publishing to districts was creating an additional criteria record at the district level. This has been corrected so that modifying criteria at the State Edition level does not create new criteria at the district level when published.

Path: Student Information > Program Administration > Academic and Graduation Programs (https://kb.infinitecampus.com/help/academic-and-graduation-programs-state-edition)

Unable to Edit GPA Calculation in Graduation Programs (SIS-193007)

Users were experiencing an issue that was preventing the editing of GPA calculations within the Academic and Graduation Programs (https://kb.infinitecampus.com/help/academic-and-graduation-program-setup) tool. This has been resolved.

Path: Student Information > Program Administration > Academic and Graduation Programs

Graduation Program Requirements Failing Inconsistently (SIS-190840)

Some districts were reporting inconsistent issues with Graduation Programs and the Multi-Year Academic Planner. These have been corrected.

Path: Student Information > Program Administration > Academic and Graduation Programs (https://kb.infinitecampus.com/help/academic-and-graduation-program-setup)

Activity Registration

Stores & Activities .2543 Maintenance (SIS-192868)

The following updates have been made to the Activity Registration (https://kb.infinitecampus.com/help/student-information-activity-registration) and School Store (https://kb.infinitecampus.com/help/school-store) tools:

- Added several accessibility features to Field Trips to improve the user interface.
- Corrected an error when signing up for an activity with restricted school enrollments.

Path:N/A

Activity History - Check In (SIS-192440) **[Enhancement]**

Added the Activity History feature to allow staff with appropriate permissions to view a student's Activity History (https://kb.infinitecampus.com/help/view-activity-history), eliminating the need to use Ad Hoc reports or navigate individual Activity Rosters.

Path: Student Information > General > Activity Registration

Assessments

Mapping Columns Without Data During Import (SIS-175311)

When importing a file (https://kb.infinitecampus.com/help/assessment-score-data-import) without selecting "Source File Includes Header" and with a column with no data, the tool auto-mapped the empty column to a database field. While this did not happen during the first upload/mapping, the issue appeared on subsequent uploads, causing unintended mappings. This issue has been resolved. The mapping ignores empty columns when not using headers for the original file and any subsequently uploaded files.

Path: Student Information > Assessment Administration > Assessment Center

Score Fields Updated (SIS-191862)

The Score Fields section of the Assessment Center Test Detail (https://kb.infinitecampus.com/help/assessment-center-test-detail) was updated:

- The 'Score Fields Selected' field was renamed 'Display on Student Assessment Page'.
- A 'Reported Score Fields' searchable multiselect field was added under the Score Field section of the Assessment Center Test Detail. It allows users to indicate which score field(s) should be included in state reporting. The selected fields are included under 'Required Fields' in Step 3-Map Data and carry over when copying an assessment.

Note: The 'Reported Score Fields' option is currently only available for New York users.

Path: Student Information > Assessment Administration > Assessment Center > Test Detail

Search Option Added to Publish Screen (SIS-192412) **[Enhancement]**

The Assessment Center's publish (https://kb.infinitecampus.com/help/publish-tests-assessment-center) function in State Editions now includes Kendo search capability to improve efficiency in publishing assessments to districts.

Path: Student Information > Assessment Administration > Assessment Center

Minimum Value Field Allows Decimals (SIS-192743)

The 'Minimum Value' field in the Result / Proficiency Statuses section of the Assessment Center's Test Detail (https://kb.infinitecampus.com/help/assessment-center-test-detail) was updated to recognize and accept values that include decimals.

Path: Student Information > Assessment Administration > Assessment Center > Test Detail

Behavior

Behavior Demerits Column (SIS-192514)

Updated the Demerits column in the Behavior Types table to not allow null values and updated existing Demerits data to have NULLs become 0s.

Path: Behavior Office > Settings > Behavior-Resolution Matrix (https://kb.infinitecampus.com/help/behavior-resolution-matrix)

Campus Analytics Suite

Update to Early Warning Category Impact Scores (SIS-192977) **[Enhancement]**

The following Enhancements have been made to Early Warning (https://kb.infinitecampus.com/help/early-warning) Impact Scores:

- Category Impact Scores are now negative when exported to Excel. This matches the UI display.
- Category Impact scores of 0 have been updated from displaying as "-0" to display as "0" in both the UI and Excel exports.

Path: Student Information > Counseling > Early Warning

Campus Instruction

Deleting Assignment Marks (SIS-156347)

Assignment Marks (https://kb.infinitecampus.com/help/assignment-marks-start-here) have been updated so that if a set of marks is aligned to an assignment, it cannot be deleted.

Path: Instruction > Grades > Grade Book > Settings > Assignment Marks

Attendance Tool Upgrade (SIS-190678) **[Enhancement]**

The Attendance (https://kb.infinitecampus.com/help/696f387) tool in Instruction has been updated to improve the visual design and accessibility of the tool. Tabs at the top of the tool allow you to switch between the Attendance List and the Seating Chart. In the Attendance List, a Summary section displays at the top if Virtual Attendance is set up.

With this change, an option has been added to easily switch between Periods using the buttons on the right when Classroom is enabled. Previously, this option was not available if a teacher had the Classroom view enabled.

Additionally, taking attendance via the Teaching Center has been updated to make the experiences more consistent. When taking attendance in the Teaching Center, you now have the option of sticking with the narrower, mobile-friendly view, or toggling on the Extended View, which

matches the design of the Attendance tool.

Path: Instruction > Students > Attendance

Instruction Tools - Go to Student Information (SIS-191847) **[Enhancement]**

A link to "Go to Student Information" has been added to the student details side panel in various tools in Instruction that did not previously have this link. The link displays if the teacher has tool rights to any tools in Student Information > General. Clicking the link opens the Student Information menu in a new browser tab, where the teacher can select which tool they want to view based on their tool rights.

Path: several tools in Instruction, such as Instruction > Students > Advisory > click student name

Assignments - Other Sections/Schedules - Course-Only Curriculum (SIS-192932)

The Other Sections/Schedules area of the assignment editor has been updated so that sections of courses marked as Course-Only Curriculum do not display in the list. Course-Only Curriculum is a Course Master-level setting that prevents teachers from aligning assignments from Course-Only sections to any other sections.

Path: Instruction > Curriculum > Curriculum List > open an assignment > Other Sections/Schedules

Campus Learning

New - Quiz Timers (SIS-191166) **[Enhancement]**

An option has been added to Quiz Settings (https://kb.infinitecampus.com/help/create-quizzes) to set a Time Limit for a quiz. Teachers can also set a Warning Time to let students know when their time limit is approaching. Once a timer is enabled in the Quiz Settings, a teacher can individualize the timer and warning via the Section Settings of the assignment.

When a timer is set, it displays for students when they're working on a quiz. When the timer expires, the quiz is automatically submitted with whatever work the student has completed at that point.

Path: Instruction > Curriculum > Curriculum List > open a quiz > Edit > Quiz Settings > Time Settings

Section Feeds - Hide Student Comments and Names (SIS-193066)

Logic has been updated to consistently apply the default setting to hide student names and comments from parents in a Section Feed, even if section-level settings haven't been saved.

Path: Instruction > General > Teacher Center > speech bubble icon

Campus Student/Parent

Empty Non-Students and Quick Info Box on Campus Parent (SIS-192707)

Errors occurred during login to Campus Parent (https://kb.infinitecampus.com/help/campus-parent-portal), where empty Non-Students and Quick Info boxes appeared. These have been corrected.

Path: Campus Parent

Census

Household Location Records Cannot Be Deleted (SIS-192298)

An issue where users were unable to delete household location (https://kb.infinitecampus.com/help/addresses-households) records through the user interface has been resolved. The delete button is now responsive and functions as expected.

Path: Household > Household Addresses

Census StateID assigned by SIF (SIS-178348)

An issue with the ModifiedID being copied from Demographics (https://kb.infinitecampus.com/help/demographics-start-here) when a StateID is assigned by SIF has been resolved.

Path: Census > People > Demographics

Social Security Number Removal and Data Purge (SIS-191861) **[Enhancement]**

A new tool (https://kb.infinitecampus.com/help/ssn-purge-tool) designed to remove personally identifiable information (PII) from our Campus sites is available. This tool allows districts to easily remove Social Security Number (SSN) records from their SIS.

What the tool does:

- Permanently deletes SSN data from the database for 6 database fields at the district
- Hides SSN fields from the UI at the district, preventing new SSN data entry through the UI
- Removes all SSN tool rights for all users
- **Irreversible: Once executed, SSN fields will remain hidden and cannot be restored**

Database fields:

- RecordsTransfer.studentSSN
- PlanStudent.ssn

- IdentityHistory.ssn
- StaffMemberSync.ssn
- Identity.ssn
- EvalStudent.ssn

This tool will not remove SSN data stored outside of the identified fields. If districts have created and stored SSN data in other fields, the SSN Purge tool *will not* alter those records. Districts will remain responsible for managing any SSN data stored in any other fields.

The following states will be excluded from this tool for reporting reasons: VA, KY, GA, IN, MO and TX.

Path: System Settings > SSN Purge

Classroom Integrations

OneRoster - Imported Assignments (SIS-192125)

Assignments received via a OneRoster connection have been updated so that dates cannot be edited, either for the whole section or for individual students, when accessing the assignment from the Curriculum List (https://kb.infinitecampus.com/help/curriculum-list). This logic was already in place in other areas of Instruction. Dates should be managed in the partner program, since any changes made in Campus will be overwritten each time the partner program syncs data.

Path: Instruction > Curriculum > Curriculum List

Combine Person

Combine Person Wizard Failing and Causing Data Loss (SIS-192697)

The Combine Person Wizard (https://kb.infinitecampus.com/help/combine-person-wizard) was failing to keep directories, which was causing the tool to fail before finishing a merge, leading to data loss. This issue was corrected.

Path: System Settings > Data Utilities> Combine Person Wizard

Cross-Site Enrollment

Cross-Site Enrollment - Attendance Recorded at Home School Displays for Inactive Serving School Course (SIS-192330)

A student who is enrolled in a Cross-Site Enrollment (https://kb.infinitecampus.com/help/attendance-information-for-cross-site-students) course at a serving school for a future date or for a course that was dropped was still recorded as absent for that course. This has been corrected.

Home School attendance is sent to the serving schools for active courses only.

Path: Student Information > General > Attendance

Custom

Custom Tool Setup - Update Parent Button Moved Under Menu Placement Area (SIS-192714) **[Enhancement]**

The Update Parent button has been moved to live under the Menu Placement Area of the Edit Custom Tool Setup screen.

Classic Nav Fields Removed from SSRS Report Configuration (SIS-192748) **[Enhancement]**

With the deprecation of Classic Campus, the following fields were removed from the SSRS Report Configuration (https://kb.infinitecampus.com/help/ssrs-report-configuration) tool:

- Index Name (Classic nav)
- Parent Tool (Classic nav)
- Sequence (Classic nav)

Arizona

Arizona - Student Program Associations, Student Needs Resources Updated for Enrollment Reporting (SIS-190464)

The Student Program Associations and the Student Needs Resources (https://kb.infinitecampus.com/help/arizona-ed-fi) were incorrectly reporting for Ancillary enrollments. This has been corrected and will now use the following logic:

- Local Service Type of Primary
  - Primary local service types will always report if they are different Start Dates
  - If the same Start Date, the earliest Enrollment ID will be used.
- Local Service Type other than Primary
  - These will only be used if they are the only enrollment in a given time frame. This means that the Enrollment does not overlap with any other Enrollment from the same school or any other school.
  - The priority order for these Local Service Types are:
    - T: AOI
    - A: Ancillary
    - O: Program Only

North Carolina - PMR Summary and Detail Calculations for ADM (SIS-193023) (SIS-192920)

The PMR Summary (https://kb.infinitecampus.com/help/pmr-summary-north-carolina) and the PMR Detail (https://kb.infinitecampus.com/help/pmr-detail-report-north-carolina) returned differing ADM calculations for the same time period. This has been corrected.

- The PMR Detail calculation now aligns with the PMR Summary calculation.
- Students who withdrew before the end of the month no longer receive an ADM of 1.0. ADM is always less than 1.0 for students who withdraw before the end of the month.
