Last Modified on 05/28/2026 10:12 am CDT

Tool Search: Special Ed Documents

The Individual Education Plan captures information about student special education plans and matches the required documentation provided by the state of North Dakota. This document describes each editor, each field on the editor, and any special considerations and instructions. For information on general functionality, navigation, and additional plan and evaluation features, see the core [Plan and Evaluation Information](#) article.

The current print format is **ND IEP 2025**. North Dakota is a State Edition. Districts cannot change the plan format.

Extended School Year

The Extended School Year editor indicates the student requires services beyond the standard school time, such as beyond school hours or during breaks.

Extended School Year IN PROGRESS Editor 23 of 25

Extended School Year (ESY) services are special education or special education-related services that are provided to a student with a disability beyond the normal school year at no cost to the parent/adult student. The services are provided to address the maintenance of skills that are currently being learned or have been learned so the student does not suffer severe losses of social, behavioral, communication, academic or self-sufficiency skills during an interruption in instruction. If the IEP team determines this student is eligible for ESY services, a Prior Written Notice of Special Education Action will be completed and provided to the parent/adult student.

Extended school year must be considered for each student with a disability: (Required)
Justification of the decision made must be stated below.

The review of data indicated that ESY services are needed
 The team has determined ESY services are not necessary
 The team needs to collect further data before making a determination and will meet again

Date to reconvene for ESY decision:

Extended school year must be considered for each student with a disability. Justification for the teams decision: (Required)
