

# Technical Information - Release Pack Campus.2547

Last Modified on 12/05/2025 2:25 pm CST

This article collects the changes made to the database schema as part of the [Campus.2547 release pack](#). Campus provides this information to enable users to update queries and scripts that may be affected by these changes.

By request, we've added a new column to the New Tables and Modified Tables that indicates whether a field can be null.

## Data Definition Language Scripts (DDL)

This section lists data structures that were created, altered, or dropped, based on the vocabulary used to define data structures in SQL Server.
