Tool Search: English Learners (EL)

The EL tool enables schools and districts to effectively manage their student English Learner (EL) programs. It provides a single area for managing EL information and pulling data for state and federal reports. The information provided below outlines the data fields specific to the state of **North Dakota**.

Districts can enter students in the program and update statuses as needed, except for Exited EL. A student's exit status is based on state criteria, and the district cannot make that determination.

Districts must provide proof of an ILP (Individual Learning Plan) annually for all EL students. The plan is not reported to the state. It is recommended that districts use the [PLP module](#) to track the plan and the [PLP Team Members](#) tool to track the plan manager, if they want to do this within Infinite Campus.

See the core [English Learners \(EL\)](#) article for additional information.
