Path: Student Information > State Programs > Home School

The Home School tool allows users to record and track students whose families have chosen home education. In North Dakota, home education is defined as a program of education supervised by a child's legal guardian. The legal guardian is responsible for selecting materials, determining an educational philosophy, and overseeing the method, manner, and delivery of instruction.

Home School Program Information Editor

See the State Programs Tool Rights article for information on the tool rights required to use this and other State Programs tools.

Use the Federal/State Program Updater to import existing Home School student records or update records for multiple students.

Add or modify a Home School record

1. Click the **New** button. The Program Information editor displays.
2. Enter the applicable information for the student.
3. Click the **Save** icon when finished.
4. Click **Print** to display a PDF view of the student's Home School records.
5. Modify existing Home School records by clicking anywhere in the appropriate record row and making the necessary adjustments. **Save** when finished.
6. End a record by clicking anywhere in the appropriate record row and add an **End Date**. Click **Save** when finished.
