Course Sections - Start here

Last Modified on 07/28/2026 4:27 pm CDT

The **Course Sections** tool provides a list of all sections of the selected course. It includes basic identifying information about the section, such as the assigned primary teacher, the location where the section meets, the term in which it meets, the period, and the number of students in each section.

This tool is mostly for reference. Any changes to Course Sections are done in the Section Information tool.

Tutorials
• Course Sections Videos • Course Sections Tools Video Series • Section Roster Video • Requests & Rosters Video

How-to guides
• Edit a Section using Section Information • Add a Section using Section Information • View the Grade Book for a Section • View Section Seating Charts
