Agent Setup - Start here

Last Modified on 07/28/2026 4:02 pm CDT

The Agent Setup tool controls and/or displays the settings of agents, or the communication representatives of applications exchanging data with the Campus student information system (SIS).

Getting started
• Understand the Agent Setup tool

How-to guides
• Create an agent to control messaging • View messages in an agent's queue • View recent activity and errors for an agent • Purge the agent queue and log

Explanation
• Push and Pull Modes • Agents as Part of Data Exchange

Reference
• Agent Tool Rights • Agent Settings Fields • Data Interchange Service • SIF Data Exchange
