

Curriculum/Assignment Copier - Start Here

Last Modified on 02/09/2026 11:21 am CST

The [Curriculum Copier](#) allows teachers to copy curriculum items, such as assignments, resources, and folders, from one of their sections to another. This tool can be especially useful at the beginning of the school year to copy last year's class materials to the new year.

This tool is available via various tools in Instruction, including the Grade Book Settings, the Planner, and the Progress Monitor.
