Student Locator Wizard - Start here

Last Modified on 07/28/2026 4:51 pm CDT

The Student Locator Wizard allows users to search for existing students across the district, and when necessary, create new students.

Getting started

- Determine whether the Birth Date field is required to search for students using the Student Locator System Preference

How-to guides

- Locate a student
- Select a student from the search results
- Create a new student
