MA SIF Publish Tool - Start here

Last Modified on 07/28/2026 4:41 pm CDT

The MA SIF Publish Tool allows users to manually initiate a resync of all SIF objects or select SIF objects for a specific school year and indicates when each SIF object has completed the resync. This tool helps ensure the state has the most up-to-date information, especially after significant data changes, such as new school schedules, new student enrollments, and modifications to the active school year.

Getting started

- Understand SIF

How-to guides

- Publish SIF objects for all district information
- Publish individual SIF objects
- Cancel publishing of objects
- Audit SIF data
