Hall Monitor Scanner - Start here

Last Modified on 08/06/2026 3:12 pm CDT

The Hall Monitor Scanner tool is used to track tardy students during the school day. Once the tardy student scans an ID card, the Hall Monitor can enter the tardy reason. This information is automatically sent to a printer, and a hall pass is printed for the student.

How-to guides

- Take Attendance Using the Hall Pass Monitor
