

# Login Security Settings - Start Here

Last Modified on 03/18/2026 1:51 pm CDT

The [Login Security Settings](#) tool allows you to control whether Staff users receive login alert notification emails and whether they must verify their identity with a one-time code or an authentication application.

## How-To Guides

### Enable Settings

- [New device notification settings](#)
- [Multi-factor authentication options](#)
- [Captcha settings](#)
- [Enable suspicious login attempts mitigation](#)
- [Enable PIV authentication](#)
- [View all active sessions and log out/disable user accounts](#)

### Reset Account Settings

- [Reset a user's multi-factor authentication credentials](#)

### PIV Card Registration Process

- [For administrators](#)
- [For staff members](#)
