Migrant Workflow Tools

Last Modified on 08/25/2026 10:33 am CDT

This article is for customers who wish to record information for Migrant students using the Migrant Workflow tools. These customers will use the **Migrant Eligibility** tool to capture Eligibility information, the **Migrant Enrollment** tool to capture information about student enrollments in Migrant Programs, and the **Program Services (Migrant Services)** tool to record information about services provided to students enrolled in Migrant Programs.

New Migrant Workflow Tools were released with Campus.2611.

Things to know

- Customers that use the legacy Migrant tool will be able to continue to use that tool to add, edit, and report Migrant data.
- The legacy Migrant tool will only be updated for existing customers if necessary from a business case standpoint.
- Existing customers that want more functionality or improved reporting will need to move to using the new workflow.
- Customers/states that move from Migrant to the Migrant Workflow Tools will have their own unique conversion needs.

Migrant workflow tools

Migrant Eligibility

- Captures information for students whose parents/guardians move frequently in an effort to find work or better living conditions
- Entered when a student has received or is pending approval of their Certificate of Eligibility
- Entered **prior to** entering Migrant Enrollment information
- Federal/State Program Updater Tool can be used with this program

Migrant Enrollment

- Used to record and report information about **individual** students' enrollment in a **Migrant Program**
- Not the same as a student's regular Enrollment data
- Entered **after** Migrant Eligibility records have been entered for a student.

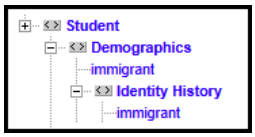

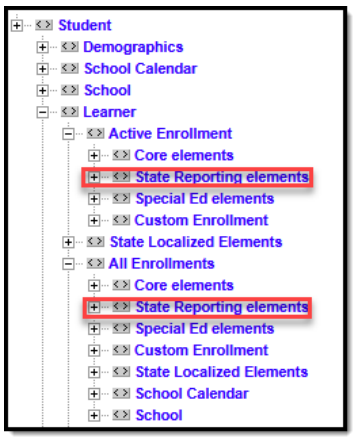

Program Services (Migrant Services)

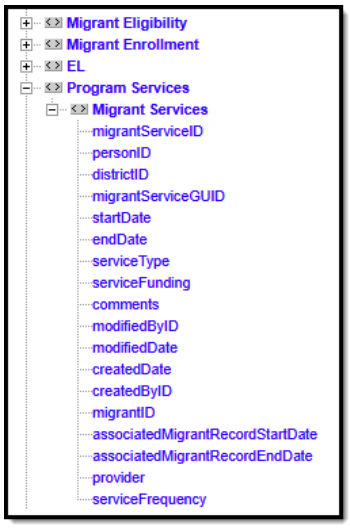

The Program Services tool provides a way to enter and display records of program-related services a student has received. For example, records may be entered for students receiving Homeless, Migrant or Health services.

Migrant information in Ad hoc

Follow your local guidelines regarding which tools your district/state uses to enter Migrant information.

Migrant information is available in the Query Wizard for **Student** Data Type filters. Some fields or field names may vary by state.

Campus Location	Ad hoc Fields
Census > People > Demographics **Census > People > Identities** Follow your local guidelines regarding entry of Migrant information in Census tools**.**	
Student Information > General > Enrollments Information varies by state.	
Student Information > Program Participation > Migrant Data entered using the Migrant tool includes both current data for customers using the **Migrant** tool rather than the Migrant Tools Workflow **(Migrant Eligibility, Migrant Enrollment, and Program Services - Migrant Services** tools) and legacy data for customers who have moved to the Migrant Tools Workflow.	
Student Information > Program Participation > Migrant Eligibility The **Migrant Eligibility** tool is part of the Migrant Tools Workflow. This tool is typically used prior to entering Migrant Enrollment or Migrant Services information.	

Campus Location	Ad hoc Fields
Student Information > Program Participation > Migrant Enrollment Migrant Enrollment information is typically entered after Migrant Eligibility information has been recorded. This tool is part of the Migrant Tools Workflow.	
Student Information > Program Participation > Program Services > Migrant Services **Migrant Services** are entered using the Program Services (Migrant Services) tool. Districts may also use this tool to record information about other services, such as Homeless Services.
