Tool Search: Ed-Fi Audit Report

The Ed-Fi Audit Report provides a record of all Ed-Fi resync and delete requests made in the last 90 days that were initiated within your Infinite Campus site. It shows who triggered each request (user or automated process), when it occurred, which schools were included, and which Ed-Fi resources were affected.

This report does **NOT** display any filters that may have been used on the request (such as specific personIDs, courseIDs, or sectionIDs). It confirms that a request was made and logs its key details.
