Condition Setup - Start here

Last Modified on 07/28/2026 3:28 pm CDT

The Health Condition Setup tool stores students' conditions or diseases. These conditions can be listed on the student's Conditions tool, and related treatments or medications can then be tracked for them.

Getting started

Prerequisites

- Health System Preferences
- Condition List Groups in the Attribute Dictionary

How-to guides

- Create a new health condition

Tutorials

- Condition Setup Video

Reference

Administrator Setup

- Health Administration Tool Rights
