

Condition Setup - Start Here

Last Modified on 05/06/2026 12:35 pm CDT

The [Health Condition Setup](#) tool stores students' conditions or diseases. These conditions can be listed on the student's [Conditions](#) tool, and related treatments or medications can then be tracked for them.

Getting Started

Prerequisites

- [Health System Preferences](#)
- [Condition List Groups in the Attribute Dictionary](#)

How-To Guides

- [Create a new health condition](#)

Tutorials

- [Condition Setup Video](#)

Reference

Administrator Setup
