

# User Session Manager - Start Here

Last Modified on 06/16/2026 9:41 am CDT

The [User Session Manager](#) lets administrators view and filter active user sessions, see how many sessions each user has, and quickly end selected sessions or end and disable a user's account when necessary.

## How-To Guides

- [View Active User Sessions | Video](#)
- [End or Disable User Sessions and Accounts | Video](#)
