Ed-Fi Resync Tool - Start here

Last Modified on 07/28/2026 3:28 pm CDT

The Ed-Fi Resync tool allows users to manually resync data from Campus to the Ed-Fi system. Although Ed-Fi data is sent from Campus to Ed-Fi in real-time (transaction-based), instances where the connection is lost, records appear not to have been sent, or other various instances may require you to manually request a resync of specific data.

How-to guides

- Resync Ed-Fi data

Reference

- Recommended Resync Order
- Ed-Fi Dependency Flowchart
