

Rx Pack - Campus.2619

Last Modified on 05/04/2026 11:10 am CDT

The following corrections are included in Rx Packs for May 2026. Rx Packs contain a small number of critical cases to fix urgent issues, with delivery in an immediate time frame (e.g., the fix cannot wait for the next four-week Release Pack).

It is recommended that customers apply all subsequent Release Packs immediately following Rx Packs. Doing so will benefit both customers and Infinite Campus when it comes to supporting the patch.

Rx Packs are cumulative; each Rx pack will automatically include all previous Rx packs within that release. These cases will also be included in the Campus.2619 pack unless otherwise noted. Rx Packs may occasionally skip a release number for Rx builds that were not made generally available.

Below is a list of all Rx Packs for Campus.2619 and the date of availability:

- Rx Pack Campus.2619.2 - Monday, May 4, 2026

See the [Release Pack Campus.2619 - May 2026](#) article for a full list of cases included in the Campus.2619 release.

Rx Pack Campus.2619.2

Assessments

Assessment Import Errors (SIS-198322)

When uploading a score file and mapping columns in Step 3, the column mappings were saved based on the original file structure. When a later version of the file was uploaded with a different structure, the existing mappings remained in the database and referenced the original column positions, leading to mismatches and import errors. This issue has been resolved. Whenever a new set of mappings is submitted, any existing mappings are cleared first. This ensures that only the current mappings are used during import and prevents conflicts caused by outdated data.

Census

Census -Remove Memory Leaks from Unclosed Census Statements (SIS-198747)

An issue where memory leaks were being caused by unclosed Census Statements on DIS queries has been resolved.

Localization - Missouri

Missouri MOSIS Student Enrollment and Attendance Update (SIS-197331)

A new data element, NR Attending as RI, is now reported in the MOSIS Student Enrollment and Attendance extract. This data element reports from the "NR Attending as RI" dropdown on the Enrollments tool. This is a required data element for the June reporting period.
