OLR Version 6.6 Release Notes

Last Modified on 10/09/2026 10:22 am CDT

This functionality is available to districts that have purchased Online Registration (OLR) as an add-on service. For more information, contact the appropriate Client Relationship Manager.

OLR Release Notes describe all changes included within the release pack, which may impact users who use Online Registration as add-on functionality to their existing student information system. Questions or concerns regarding an update should be directed to Campus Support. See the Online Registration Product Documentation for more information.

Online Registration (OLR) Version 6.6.14 (10/9/2026)

This version of Online Registration is compatible with Campus-2631 and later.

Fixes

- Fixed an issue where the Zip Code, Zip Code extension, and County could be modified when linking an address. (CDP-4853)
  - Tool Search: Census > Online Registration > Application Processing

Online Registration (OLR) Version 6.6.13 (10/2/2026)

This version of Online Registration is compatible with Campus-2631 and later.

Fixes

- Fixed an issue where deleting an OLR configuration that was tied to a Feeder setup would cause the Feeder Setup to freeze. Now, when deleting an OLR configuration tied to a Feeder Setup, the Feeder Setup will also be deleted. (CDP-4677)
  - Tool Search: System Settings Open Enrollment Setup > Feeder
- Fixed an issue where OLR applications could be submitted even when a student had no guardians in their household. (CDP-4680)
  - Tool Search: Parent Portal > More > Online Registration
- Fixed an issue where parents were allowed to make multiple OLR applications in an OE-tied OLR Config. This was causing issue in OE. Now, when an OLR Config is tied to an OE config, the "Allow Multiple Parent Portal Applications per Configuration" setting in OLR System Settings is hidden and unchecked. (CDP-5181)

    - Tool Search: System Settings > Online Registration Setup > OLR Setup; System Settings > Online Registration Setup > OLR System Settings
- Fixed an issue where Multi-Select fields that were Flagged for Review were showing up incorrectly during Application Processing. (CDP-5289)
    - Tool Search: Census > Online Registration > Application Processing
- Fixed an issue where under specific circumstances, multiple OLR records within an application could be created. (CDP-5369)

Online Registration (OLR) Version 6.6.12 (9/18/2026)

This version of Online Registration is compatible with Campus-2631 and later.

Enhancements

- New functionality has been added that allows a user to copy previous configurations for Open Enrollment making for a more complete roll-forward processing from year to year. (CDP-4326)

Fixes

- The OLR Application Statistics Report and the OLR Applications With No Enrollments Report both had inaccurate values in the Status filter field. The values have been updated to accurately reflect application statuses for unsubmitted applications. (CDP-3821)
- An update was made to ensure that Response values are consistent across various tools. (CDP-4728)
- An issue existed where a user would get stuck in processing of a new application instead of receiving information about eligibility. This has been fixed. (CDP-5235)
- An issue existed that affected visibility when sorting various templates. This has been fixed. (CDP-5260)
- The OLR System Setting "Number of characters for first name link matching" is no longer used and was removed from the UI. (CDP-5288)
- An issue existed that allowed users to bypass a required drop-list field. This has been fixed. (CDP-5295)
- An issue existed that allowed a user to approve an application that had not yet been submitted. This has been fixed. (CDP-5300)

Online Registration (OLR) Version 6.6.11 (9/4/2026)

This version of Online Registration is compatible with 2631.0 and later.

Enhancements

- OLR kiosk and email link application fields have been updated to auto-capitalize name fields. (CDP-3629)

Fixes

- An issue existed with the appearance of the signature line on printed receipts. An update was made so that the signature line will not appear if the setting is not enabled; it always appears if it is enabled (OLR System Setting > Required Drawing Signature). (CDP-3491)
- Grade fields in Open Enrollment Application Processing have been renamed to better reflect the data contained within the field. Functionality has also been updated to show the field when necessary. (CDP-4705)
- Enrollments created through Open Enrollment were not appearing correctly on the Enrollment Summary Details Report. This has been fixed. (CDP-5073)
- Search results for Open Enrollment applications have been updated to accurately reflect the selected filter options. (CDP-5113)
- An issue existed where enrollments were being posted with the incorrect grade level. This has been fixed. (CDP-5182)
- An issue existed where all grade levels were available for selection instead of the grades associated with the configuration. This has been fixed. (CDP-5184)
- An issue existed where Grade Levels with a different display name than the code would not work with the conditional values in OLR. The issue has been fixed. (CDP-5185)
- Users were receiving an error when trying to delete an existing Open Enrollment Configuration; this has been fixed. (CDP-5274)

Online Registration (OLR) Version 6.6.10 (8/21/2026)

This version of Online Registration is compatible with 2631.0 and later.

Fixes

- Online Registration Student tab was displaying a timestamp that differs from the time in which the application was actually submitted. This has been fixed. (CDP-5217)
- ND - An issue existed with North Dakota raceEthnicity values posting the incorrect code. This has been fixed. (CDP-5279)

Online Registration (OLR) Version 6.6.9 (8/14/2026)

This version of Online Registration is compatible with 2631.0 and later.

Fixes

- Default English translations have been added to ensure that portal translations for non-English languages are less confusing for administrators during set-up. (CDP-5232)
- An issue existed when reviewing data during application processing that displayed the incorrect Previous Email value. This has been fixed. (CDP-5268)

Online Registration (OLR) Version 6.6.8 (8/7/2026)

This version of Online Registration is compatible with 2631.0 and later.

Fixes

- An issue existed that allowed a user with limited calendar rights to view data within a report outside of those rights. This has been fixed. (CDP-4375)
- The OLR Email Log body text has been updated to support glyph based characters as they are added to core Campus functionality. (CDP-4681)
- An issue existed that allowed a user to approve/deny an open enrollment application prior to the online registration application submission. This has been fixed. (CDP-4922)

Online Registration (OLR) Version 6.6.7 (7/24/2026)

This version of Online Registration is compatible with Campus.2631 and later.

Enhancements

- NV - Race and Ethnicity values have been updated to include MENA (Middle Eastern or North African). (CDP-5201)

Online Registration (OLR) Version 6.6.5 (6/17/2026)

This version of Online Registration is compatible with Campus.2623 and later.

Fixes

- An issue existed where the conflicting Enrollments status for Post Enrollment was not updating for end-dated enrollments. This has been fixed. (CDP-5106)
- Open Enrollment Configurations were referencing On Time date fields instead of the Window Date fields. This issue has been fixed. (CDP-5160)

Online Registration (OLR) Version 6.6.3 (6/8/2026)

This version of Online Registration is compatible with Campus.2623 and later.

Fixes

- Script that was creating orphaned OE records in OLR Standard tables has been corrected. (CDP-5102)
- Adjusted the new CDR check to eliminate the possibility of a timeout. (CDP-5107)

Online Registration (OLR) Version 6.6.2 (6/5/2026)

This version of Online Registration is compatible with Campus.2623 and later.

Fixes

- Numeric fields have been updated to allow a value of 0. (CDP-4880)
- An issue existed withing Application Processing search when utilizing the Address Status field that caused the user to receive an error message. This has been fixed. (CDP-5085)
- An issue existed within Person Linking which caused the user to receive an error message when attempting to search for a person to link. This has been fixed. (CDP-5086)

Online Registration (OLR) Version 6.6.1 (5/26/2026)

This version of Online Registration is compatible with Campus.2623 and later.

Enhancements

- Open Enrollment tools are now available for use in the Parent Portal. (CDP-4327)
- Multiple enhancements have been made to the Posting processing for Open Enrollment, including an added setting to allow Post if no StateID is present and to process the deletion of conflicting enrollments if selected, as well as the addition of state enrollment table records. (CDP-4659)
- CO OLR Race/Ethnicity values have been updated to align with CO state reporting. (CDP-4933)

Fixes

- An issue existed where users were receiving a blank error message when attempting to save multiple applications with the Open Enrollment Setting "Unlocked Only: Allow Once Accepted Application" enabled. This has been corrected (CDP-4885)
- An issue existed where the Follow Up App status was not listed in the application header. This has been corrected. (CDP-4924)
- An issue existed with Seat Count values while running the Lottery. This has been corrected. (CDP-5078)

Online Registration (OLR) Version 6.6.0 (5/5/2026)

This version of Online Registration is compatible with 2615.0 and later.

Enhancements

- The newly added tuition billing tools have been integrated with online registrations. Users can now add tuition billing capabilities within OLR configurations. (CDP-4360)

Fixes

- An issue existed that did not allow posting on non-custom signature fields. This has been fixed. (CDP-4941)
