Attendance Aggregation Preferences - Start here

Last Modified on 07/28/2026 3:28 pm CDT

The Attendance Aggregation Preferences tool allows district administrators to view and select which attendance views and stored procedures are applied to the district's chronic absenteeism calculation. Selected options change the display of the Chronic Absenteeism view on the Student Attendance tool.

Getting started

- Attendance Aggregation Quartz Job

How-to guides

- Assign Attendance Aggregation Preferences
- Schedule a Supplemental Attendance Aggregation Calculation
