GPA Calculation Setup - Start here

Last Modified on 07/28/2026 3:28 pm CDT

The GPA Calculation Setup tool is used to create custom GPA calculations that consider only students' performance in the selected courses.

For detailed information about GPAs, GPA Calculations, GPA Weights, etc., see GPA Calculations in Campus.

Tutorials

- Configure custom cumulative GPA formulas and weights Video I Simulation

How-to guides

- Create a Custom GPA
  - Stored Procedure
