

# Ed-Fi Reports Tool Rights

Last Modified on 05/29/2026 11:07 am CDT

Since generating a report doesn't add or change existing data, **only Read rights are required**. Write/Add/Delete rights, if granted, have no impact.

- The [Ed-Fi Audit Report](#) generates a report that includes various details about resync/delete requests made in the last 90 days for a configuration(s).
- The [Ed-Fi Event Queue Statistics Report](#) details the total number of events that entered the Ed-Fi Event Queue and the number of events processed and inserted in the past five days.
- The [Ed-Fi Identity Mapping Report](#) allows users to generate a report detailing Identity Mapping IDs from the Ed-Fi Identity Mapping table within Campus.

Tool Rights for Ed-Fi Reports

## Suggested User Groups

Typically, users of this tool have already been assigned one or more Product Security Roles that grant administrative-level access; therefore, a user group assignment is not necessary.

If your district's needs are different, you may choose to create a group that meets those needs.

See [User Groups and Suggested Roles](#) for more information.
