The [Ed-Fi Data Comparison](#) (Reconciliation) tool compares state Ed-Fi data with data in the Campus database. Users can identify errors and gaps in data at the state and Campus levels and correct them to improve data quality and ensure proper state reporting and funding.

See the [Getting Started with Ed-Fi](#) article for information on using Ed-Fi.

Suggested User Groups

Typically, users of this tool have already been assigned one or more Product Security Roles that grant administrative-level access; therefore, a user group assignment is not necessary.

If your district's needs differ, you may choose to create a group to meet them.

See [User Groups and Suggested Roles](#) for more information.
