

Ed-Fi Event Queue Tool Rights

Last Modified on 05/29/2026 10:29 am CDT

The [Event Queue](#) lists all data-syncing events waiting to sync data from Campus to Ed-Fi. This list may also include any changes made to a table used in a state's Ed-Fi implementation.

See the [Getting Started with Ed-Fi](#) article for information on using Ed-Fi.

The screenshot displays the 'Ed-Fi Event Queue' interface. At the top, there is a breadcrumb trail: 'Reporting > Ed-Fi > Ed-Fi Event Queue'. Below this, the title 'Ed-Fi Event Queue' is followed by a 'Related Tools' dropdown menu. The main content area is titled 'Ed-Fi Event Queue' and contains a section for 'Resync Requests Processing'. This section includes a table with columns for 'RESYNC TIMESTAMP', 'STATUS', and 'RESYNC DETAILS'. A row shows a timestamp of 'Sep 10, 2025, 10:48:51 AM', a status of 'Processing', and a 'Download Resync Details' button. Below this is a larger table with columns: 'Queue Order', 'Action Type', 'Campus Table / Resource Name', 'Audited Data', and 'Currently Processing'. The table lists six items, with the first five having 'Resync' action types and 'true' in the 'Currently Processing' column, and the sixth having an 'Update' action type and 'false'. A 'Process Now' button is located at the bottom left of the interface. At the bottom right, there is a pagination indicator showing '301 - 306 of 306 items'.

Queue Order	Action Type	Campus Table / Resource Name	Audited Data	Currently Processing
301	Resync	bellSchedules Resource	29	true
302	Resync	bellSchedules Resource	30	true
303	Resync	bellSchedules Resource	31	true
304	Resync	bellSchedules Resource	32	true
305	Resync	bellSchedules Resource	33	true
306	Update	Day	Open Audited Data	false

Available Tool Rights

R	W	A	D
<ul style="list-style-type: none"> • Access and view the Ed-Fi Event Queue. • Refresh the list of events. • Download and review Resync Details. • View a list of audited data with the Open Audited Data button. 	<ul style="list-style-type: none"> • Process the events listed in the queue immediately. 	N/A	N/A

Suggested User Groups

Typically, users of this tool have already been assigned one or more Product Security Roles that grant administrative-level access; therefore, a user group assignment is not necessary.

If your district's needs differ, you may create a group to address them.

See [User Groups and Suggested Roles](#) for more information.
