Grading Scale Setup - Start here

Last Modified on 07/28/2026 4:37 pm CDT

Grading Scales are used by the Campus Grade Book to convert numeric percentages to In Progress grades. Values entered in the Score column must match items defined in the Score Group in order to post grades. The Grading Scale should include all scores that can be auto-calculated by the Campus Grade Book.

Tutorials
• Grading Scale Setup Video

How-to guides
• Create a Grading Scale

Explanation
• Grading Scales are used to score assignments, which are then converted, using Score Groups and Rubrics, into values reported on student transcripts. • Grading Scales are selected for use in the Grade Book using Grade Calculation Options.

Reference
• Grading Scales can also be created by teachers from the Grade Book.
