The **Service Layout Copy Wizard** tool allows staff to copy existing services and service layouts (menus) to one or more existing Food Service Application (defined location where services can be offered).

See the [Service Layout Copy Wizard](#) article to learn how to use this tool.

These tools are only available to customers who have purchased **Campus Point of Sale** as add-on functionality. To learn more about how these tools are used, see the articles in the [Food Service Administration](#) category.
