Special Ed Caseload - Start here

Last Modified on 07/28/2026 3:27 pm CDT

The Special Ed Caseload provides two ways users can view the students in their caseloads. Students appear in a user's caseload based on the user's Team Memberships of **Case Manager** or **Service Provider**. Service Providers can also display when they are selected as Service Providers in the student's plan. The students who display in the caseload are not determined by the Year, School, or Calendar selected in the Campus toolbar.
