

Data Import Wizard - Start here

Last Modified on 07/28/2026 4:34 pm CDT

The [Data Import Wizard](#) allows districts to import data from a third party into Infinite Campus. This is not a general tool. It is a framework for running custom import modules written by Infinite Campus Technical Services. An Authorized Contact at your school can open a Request Technical Services Support Ticket if you are interested in doing this.

How-to guides

Establish Import Settings

- [Local](#)
- [FTP](#)
- [FTPS](#)
- [SFTP \(Legacy - Deprecated\)](#)
- [SFTP](#)
- [HTTP](#)
- [SMB](#)

Import Schedule
