

OLR Literals, Lists, and Language Groups Tool Rights

Last Modified on 07/17/2026 3:16 pm CDT

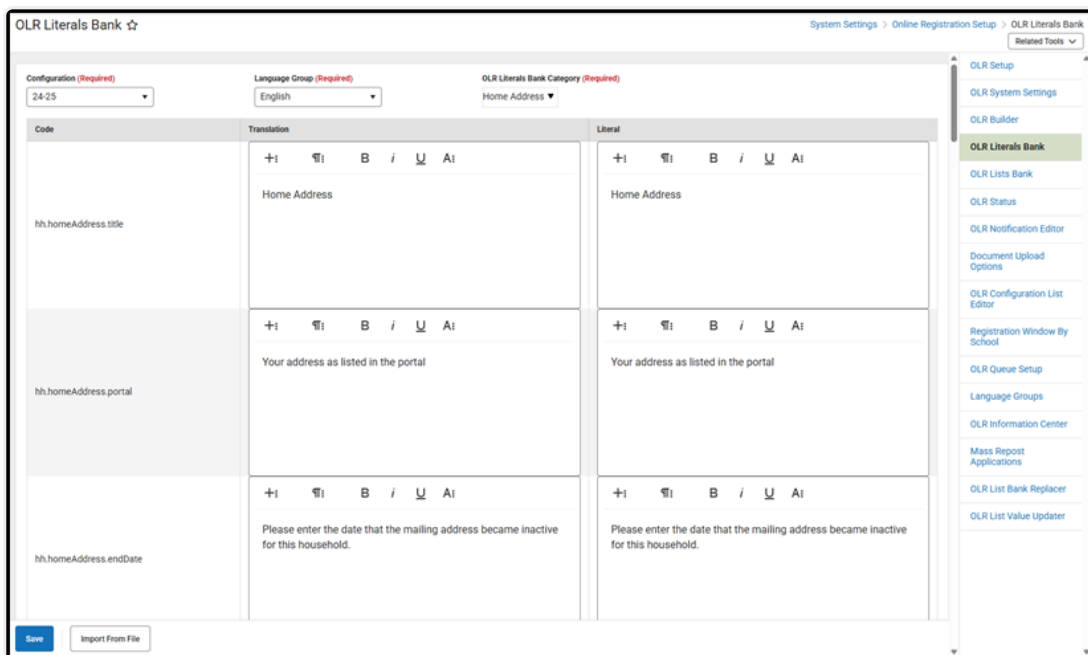

Online Registration requires a Campus administrator or other designated staff person to create and enter several values before applications can be accessed and submitted.

This article provides information on the recommended tool rights for the following OLR tools:

- OLR Literals Bank
- OLR Lists Bank
- OLR List Bank Replacer
- OLR List Value Updater
- Language Groups

OLR Literals Bank

The [OLR Literals Bank](#) allows you to provide translated text or additional clarification for options displayed on the Online Registration site. When parents/guardians log in to the Online Registration site, they are prompted to select a language. That selection determines what text displays when they move through the registration panels.
