

Food Service Deposit - Start here

Last Modified on 07/28/2026 3:28 pm CDT

[Food Service Deposit](#) allows staff to enter new deposits, void existing deposits, and review account balances for a patron with a POS account, whose account is not attached to a household record in Campus. This tool is typically used for staff member patron accounts.

Deposits for student patron accounts should be entered using [Household Food Service Deposit](#), which allows deposits to be divided between patrons in a household.
