# Release Pack Campus.2631 - July 2026

Last Modified on 09/10/2026 2:18 pm CDT

This release includes upgrades to printed reports as part of our ongoing FOP project. Rather than listing updated reports for individual cases, a list of all updated reports can be found in the PDF and DOCX Report Updates (https://kb.infinitecampus.com/help/pdf-and-docx-report-updates-2026) article.

# Technical Information

See the Technical Information - Release Pack Campus.2631 (https://kb.infinitecampus.com/help/technical-information-release-pack-campus2631) article for a list of schema changes in this release.

# Academic Planning

Assigning SE Academic Programs to Students Not Consistent When the Credit Types not Properly Mapped (SIS-199196)

When assigning state-managed academic programs to students, manually or through the Batch Program Assignment Wizard, the results were not consistent when the credit types were not properly mapped. This has been corrected so that students cannot be assigned to state-managed academic programs if credit types are not properly mapped.

Path: Student Information > Academic Planning > Programs > New Academic Program

# Activities & Sports

Activity Eligibility Report - Section Teachers (SIS-197076)

Previously, if a student was scheduled into multiple sections of the same course, the Activity

Eligibility Report displayed the same teacher for all sections instead to the correct teacher for each section. This has been corrected.

Path: Student Information > Reports > Activity Eligibility Report

# Activity Registration

Outstanding Balance Report Load (SIS-200562)

Resolved an issue where the Outstanding Balance report would not load.

Path: Dependent Care > Reports > Outstanding Balance

# Ad hoc Reporting

Images Not Printing on Letters (SIS-133551)

Images were failing to appear on printed/previewed letters. This issue was corrected.

Path: Reporting > Ad Hoc Reporting > Letter Designer

# Assessment

Update to Test Score Validation Logic and DIS Parent Test Matching (SIS-198777)

The state application now accepts test scores (https://kb.infinitecampus.com/help/assessment-center) from any district in which a student was enrolled at any point during the current year. This replaces the previous rule that accepted scores only from the student's most recent district of enrollment. The updated logic supports cross-site enrollments and ensures scores from all relevant districts are processed. Scores from districts with no enrollment match are rejected and logged with an explicit error.

Child test scores sent from districts now include the parent test's GUID to ensure accurate matching on the state side. This resolves an issue in which multiple tests shared the same state code, test code, type, and end year, resulting in incorrect parent lookups and failed child score saves. The system now reliably links each child score to the correct parent test.

# Campus Instruction

Classroom Messenger - Allow Teachers to Send Messages Before Term Starts (SIS-197631) **[Enhancement]**

Teachers can now send messages to students with future roster start dates before the first day of the term using Classroom Messenger (https://kb.infinitecampus.com/help/34f43ea). Previously, teachers could send messages to students early if they did not have a Roster Start Date, which was common practice unless the student was starting the section late. However, Cross-Site Enrollment setup

automatically adds a future Roster Start Date, necessitating a change in Classroom Messenger logic.

# Campus Learning

Curriculum Import - Characters Not Valid for Windows File Paths (SIS-191932)

Previously, attempting to import (https://kb.infinitecampus.com/help/import-curriculum) curriculum files that contained characters not valid for Windows file paths caused the Import to fail. Logic has been added to handle filenames with these characters.

Path: Instruction > Curriculum Planning > My Curriculum > Import

Curriculum Import File Upload Limitation (SIS-197550)

Previously, the Curriculum Import (https://kb.infinitecampus.com/help/import-curriculum) tool could not upload files with names exceeding 100 characters due to a limitation in the Campus Digital Repository. To address this issue, file names that exceed 100 characters are now truncated in the middle and replaced with "---" when the Curriculum Import tool uploads files to the CDR.

Path: Instruction > Curriculum Planning > My Curriculum > Import

Copy Questions to a Question Bank (SIS-200237)

Previously, copying questions to a new Question Bank (https://kb.infinitecampus.com/help/create-question-bank) was temporarily unavailable. This has been corrected.

Path: Instruction > Curriculum > Curriculum > open a quiz

Editing Questions with Images (SIS-200242)

Previously, questions with images could not be edited once they were saved or added to a question ban (https://kb.infinitecampus.com/help/create-question-bank)k. This has been corrected.

Path: Instruction > Curriculum > Curriculum > open a quiz

# Census

Census - Add Parameter to get_library Extract to Allow Removal of SSN Values (SIS-176935)

The get_library extract has been updated to include a new parameter (@includeSSN) that allows users to exclude Social Security Numbers from the report. This change provides users with more

control over the sensitive data included in the get_library extract.

Path: get_library extract

Summer EBT Address Information (SIS-199830) **[Enhancement]**

An Address Information editor has been added to the Summer EBT Program tool. This allows the selection of student household addresses marked as mailing from a dropdown field as well as manual entry of address information where appropriate.

This address information syncs from district to state for State Edition customers. Manually entered addresses only appear in the Summer EBT Program record. They do not appear in Census > Addresses for selection or association with other households in Campus.

Some districts or states may require this information for the purpose of mailing EBT cards. Address requirements may vary by state.

Path: Student Information > Program Participation > Summer EBT

# Classroom Integrations

LTI 1.3 - My Curriculum Content Selection Placement (SIS-199309)

The issue with the "My Curriculum Content Selection" placement for LTI 1.3 connections has been resolved. Previously, users were able to attach LTI content in My Curriculum, but could not launch the attached content. This has been fixed, and now users can both attach and launch LTI content frin My Curriculum if the LTI partner has the "My Curriculum Content Selection" placement checked.

Path: Instruction > Curriculum Planning > My Curriculum

OneRoster 1.1 - Ordering of User Orgs (SIS-200172)

The orgs list returned by the OneRoster v1p1 students/users/teachers endpoints had no guaranteed ordering, relying on whatever order the database returned school associations. This caused intermittent test failures when comparing user data across different retrieval paths (view, sequence table, dateLastModified), since the same orgs could return in different orders. Logic has been updated to return the primary org first, such as the school with the Primary enrollment or the earliest District Assignment, followed by additional orgs, ending with the district org.

# Custom

SSRS Report Options Improvement (SIS-200228)

SSRS reports now use POST requests to prevent parameter-length limits on large student selections and improve support for cascading default values.

Path: System Settings > Custom Data and Links > SSRS Report Configuration (https://kb.infinitecampus.com/help/ssrs-report-configuration)

# Dependent Care

Dependent Care Maintenance (SIS-199957)

Dependent Care maintenance updates with usability improvements, configuration updates, receipt enhancements, and fixes for access, registration, data entry, and workflow issues.

Path: Dependent Care

Dependent Care Update (SIS-200022) **[Enhancement]**

The following Dependent Care updates have been made:

- A display issue on the Sessions & Rates screen when switching between a Weekly and Monthly invoice schedule has been corrected.
- Users are now able to "Reset" the form if they originally "Declined" the consent to use electronic signatures when they click Save & Next. This allows them to open the form and "Accept" electronic signatures without having to delete the draft and start over.
- The connection error when scheduling student care has been corrected.
- Program Financial Activity and Student Financial Activity report duplicities have been corrected.

Path: Dependent Care

Dependent Care Attendance Update (SIS-200427)

An issue that caused attendance to lock down for all programs when invoicing was run before the current day has been resolved. Attendance locking has been adjusted to impact only programs using Flexible Attendance.

Path: Dependent Care

Overdue Job Automatically Assigns Inactive Late Payment Charges (SIS-200444)

A bug in the invoicing system was causing inactive late payment charges to be automatically assigned to students resulting in guardians being invoiced for inactive late payment charges. This has been corrected.

Path: Dependent Care

Dependent Care Update (SIS-200449)

- The Dependent Care tool has been updated to allow Administrators to select/edit flexible schedules through a monthly selection editor.
- The following items can no longer be edited/are view-only once an invoice is generated that encompasses their applicable effective dates:
  - Current and Previous schedules
  - Credits
  - Discounts
  - Charges

Path: Dependent Care

Program Financial Activity and Student Financial Activity Report Update (SIS-200594)

The Program Financial Activity and Student Financial Activity Reports incorrectly displaying data for certain charges and adjustments, have been corrected to:

- display the total late charge amount instead of the late per minute charges
- display the per five-minute charge
- display charge adjustments

Path: Dependent Care

Dependent Care Flexible Schedule Drop In Functionality Update (SIS-200641)

Drop-in functionality has been restored for Flexible Schedules.

Path: Dependent Care

# DIS/SIF

SIF Unity – Configuration Header Updates (SIS-199847) **[Enhancement]**

The headers in the SIF Unity Configuration tool (https://kb.infinitecampus.com/help/sif-unity-configuration) have been updated to the correct size and to have the associated Configuration Name displayed when saved.

Path: System Settings > SIF Unity > Configuration

SIF Unity Configuration Update (SIS-199866)

Issues with null values in the SIF Unity Configuration (https://kb.infinitecampus.com/help/sif-unity-

configuration) have been resolved. Previously, if the Key Secret of the Configuration was blank but had been saved, it would be hidden from the screen, preventing new configurations from being created.

Path: System Settings > SIF Unity > Configuration Tool

SIF Unity - StudentSnapshot: Batch Only (SIS-200236)

The StudentSnapshot object (https://kb.infinitecampus.com/help/sif-unity-objects)in the Core SIF Unity library has been updated to work in batch mode only.

Path: System Settings > SIF Unity

# Ed-Fi

Ed-Fi - Student Section Attendance Events Mapping Updates (SIS-199438) **[Enhancement]**

The Resource Preference mappings for the Student Section Attendance Events resource (https://kb.infinitecampus.com/help/core-ed-fi) have been updated to allow users to map to state codes.

Path: Reporting > Ed-Fi > Configuration > Resource Preferences

Ed-Fi - Identity Mapping Report Improvements (SIS-200148)

The Ed-Fi Identity Mapping Report (https://kb.infinitecampus.com/help/ed-fi-identity-mapping) has been updated to show the correct resources for each state.

Path: Reporting > Ed-Fi > Identity Mapping Report

# Food Service

End of Day Report Update (SIS-195608) **[Enhancement]**

The End of Day report has been updated to improve usability.

Path: Food Service > Reports > End of Day Report

Save General Preferences in Food Service (SIS-195671)

Resolved an issue where General Preferences would not save if a district had yet to set up preferences.

Path: Food Service > Setup > General Preferences

Backdated Adjustment Report Usability (SIS-198057) **[Enhancement]**

Improved the usability of the Backdated Adjustment report.

Path: Food Service > Reports > Backdated Adjustments Report

POS Terminal Balance (SIS-198320)

Resolved an issue where POS accounts did not show the correct balance immediately after a transaction was voided.

Path: Point of Sale

Deposit Report Grouping by Household (SIS-198451)

Resolved an issue where an error occurred when generating the Deposit Report in PDF format when grouped by Household.

Path: Food Service > Reports > Deposit Report

Application Detail Save (SIS-200112)

Resolved an issue where the Application Detail side panel was not saving changes after a service had been added.

Path: Food Service > Administration > Application Manager

POS Version Update 4.0.2 (SIS-200811)

The following updates have been made to the Point of Sale tool:

- Resolved an issue where POS accounts did not show the correct balance immediately after a transaction was voided.

Path: Point of Sale

# Forms/Documents

Custom Forms Fix (SIS-198917)

An issue where the New Version button did not display for Custom Forms (https://kb.infinitecampus.com/help/custom-forms-setup) without any fillable fields was fixed.

Path: Student Information > General Student Administration > Custom Forms Setup

# FRAM

FRAM Letter to Household Template (SIS-200250)

The required Richard B Russell statement in the FRAM Letter to Household (Step 4, Footer) was missing for the 26-27 template. This has been fixed for generation of new letters.

Any district that generated their FRAM>Setup>FRAM Communication>Online Application Content>Letter to Household for 26-27 prior to taking the release Campus.2623.10 or Campus.2627.2, must confirm the required language below appears in Step 4 (Footer) of the Letter to Household. If missing, insert the required language found below in Step 4 before the first paragraph. After updating the required language and saving, it will update what appears on the portal Meal Benefits Application. You should not have to delete and regenerate the entire letter. The required language is:

"The Richard B. Russell National School Lunch Act requires the information on this application. You do not have to give the information, but if you do not, we cannot approve your child for free or reduced price meals. You must include the last four digits of the social security number of the adult household member who signs the application. The last four digits of the social security number is not required when you apply on behalf of a foster child or you list a Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance for Needy Families (TANF) Program or Food Distribution Program on Indian Reservations (FDPIR) case number or other FDPIR identifier for your child or when you indicate that the adult household member signing the application does not have a social security number. We will use your information to determine if your child is eligible for free or reduced price meals, and for administration and enforcement of the lunch and breakfast programs. We MAY share your eligibility information with education, health, and nutrition programs to help them evaluate, fund, or determine benefits for their programs, auditors for program reviews, and law enforcement officials to help them look into violations of program rules."

# State Edition

New - State to District Login (SIS-198546) **[Enhancement]**

New State to District Login functionality has been added for state edition customers. This feature allows state users to enable login from the state edition to DIS-connected district editions via a special user group. State edition users can log in without needing to share logins or maintain separate district edition accounts. Their access to limited to Read-only (where supported by tool rights) and is more trackable than other homegrown solutions.

To enable State to District Login (https://kb.infinitecampus.com/help/enable-state-to-district-login), a user at the state edition toggles the option on and adds district edition URLs to the State to District Login Administration tool and then creates a User Group with the State to District Edition checkbox marked and add users to that group. Those users can then visit the State to District Login tool (https://kb.infinitecampus.com/help/log-in-to-district-edition-as-a-state-edition-user), where they can log in directly to district sites using a auto-generated State to District account.

Note: the option to use State to District Login is not available for users who have used the Log In as User option to access an account.
