

OLR Information Center and Mass Repost Application Data Tool Rights

Last Modified on 07/17/2026 2:27 pm CDT

The OLR Information Center and the Mass Repost Application Data tools support application processing.

- The OLR Information Center provides links to Online Registration via kiosk and email.
- The Mass Repost Applications tool allows administrators to report field data for applications that have already been posted. **This cannot be reversed.**

OLR Information Center

The OLR Information Center provides the links for Online Registration on a kiosk and links that can be sent via email. The Potential Problems section lists areas that could lead to issues.

See the [OLR Information Center](#) article for information on using that tool.

Potential Problems

Items listed in **red** are problems that will block parents/guardians from starting or completing OLR forms and should be addressed immediately. These are never valid configurations.

Items listed in **yellow** are problems that won't stop a parent/guardian from starting or completing an OLR form but generally indicate that there is a configuration issue.

Items listed in **blue** are minor issues that often indicate an issue in how OLR is configured, but can be valid in certain circumstances.

Mass Repost Applications

The Mass Re-Post Applications tool allows districts to repost selected Online Registration field data for applications that were already posted and are currently in a status that can post data. Existing Campus data is deleted and replaced with Online Registration data.

See the [Mass Repost Applications](#) article for information on using that tool.
