

PLP Caseload - Start here

Last Modified on 08/14/2026 10:32 am CDT

The [PLP Caseload](#) provides two ways users can view the students in their caseloads. Students appear in a user's caseload based on the user's [Team Memberships](#) of **Team Manager** or **Service Provider**. The students who display in the caseload are not determined by the Year, School, or Calendar selected in the Campus toolbar.
