

Responsive Scheduling - Getting Started

Last Modified on 07/22/2026 10:13 am CDT

Tool Search: Responsive Scheduling

Responsive Scheduling tools allow schools to establish a special period of the day as focused instruction on a particular topic, referred to as an *Offering*. These offerings should be considered as additional instruction time. A teacher can offer a session for those students in an English class the chance to make up a missed test, while other students in that English class would be scheduled into a different offering of their choosing or their teacher's choosing.

This period of the day can happen multiple times a day, for an entire day during the week, once a month, once a term, etc.

Responsive scheduling may also be called Flex Time, Intervention Programming, Enrichment Courses, or something similar.

See the [Responsive Scheduling Video Series](#) for additional information about Responsive Scheduling in Campus.

New Responsive Schedule

This tool allows the user to create Responsive Schedules. The Responsive Schedule Detail section allows the user to define when teachers and students will have access to a Responsive Schedule and when students should be notified of their participation in an offering for this Responsive Schedule. The Responsive Schedule Placement section allows the user to control when a Responsive Schedule will occur. The Responsive Course section allows the user to select the course(s) that will be available to the Responsive Schedule and when they are available.

Responsive Schedule Designe

Before implementing Responsive Scheduling as a part of the school's offerings, review your business processes and discuss this opportunity with the appropriate individuals. This affects all areas of a school, including administrators, attendance clerks, teachers, counselors, curriculum directors, etc. Consider the benefits and consequences involved with the following:

- Calendar changes (new periods, different schedule structures, period length, instruction minutes, etc.)
- New programs/courses to offer
- Course placement

- Attendance tracking

Responsive Scheduling Tools

The following tools are available within the Responsive Scheduling toolset:

- [Responsive Schedule Designer](#)
- [Section Builder](#)

The following tools are available for teachers creating offerings:

- [Responsive Scheduling \(Campus Instruction\)](#)

The following tools are available for students requesting responsive day offerings:

- [Responsive Scheduling \(Campus Student\)](#)

See the [Responsive Schedule Designer Tool Rights](#) article and the [Responsive Schedule Section Builder](#) article for information on rights needed to use those tools.

Responsive Scheduling Workflow

Task		Responsible Staff	Location
1.	Review your overall approach to educating students prior to implementing this tool.	Curriculum Director, Teachers, School Administrator, Counselor, etc.	N/A
2.	Create a separate period schedule for the responsive courses, if necessary (when these are special days outside of the main period schedule). If necessary, mark that period schedule as an Exception/Special Day. When this is done, the period schedule is excluded from the Day Rotation process and would need to be manually added to a Day.	Campus Administrator/Tech Director	Scheduling & Courses > Calendar Setup > Period Setup

Task		Responsible Staff	Location
3.	Mark which periods in the period schedule can be marked as responsive, indicating responsive courses can be scheduled into them.	Campus Administrator/Tech Director	Scheduling & Courses > Calendar Setup > Period Setup
4.	Assign the Responsive Period Schedule to appropriate Calendar Days .	Campus Administrator/Tech Director	Scheduling & Courses > Calendar Setup > Days Setup
5.	Mark the courses that allow responsive offerings. <i>It is recommended that separate courses be created for use with Responsive Scheduling, and that these courses are excluded from state reporting and a state code is not associated with them.</i>	Curriculum Director	Scheduling & Courses > Course Information > Scheduling > Responsive
6.	Use the Responsive Schedule Designer to establish a responsive day and allow the teachers and administrators (principals, counselors, etc.) to create offerings and schedule students to those offerings.	Curriculum Director	Scheduling & Courses > Responsive Scheduling > Responsive Schedule Designer
7.	Create an offering for the responsive day .	Teachers	Instruction > Scheduling > Responsive Scheduling
8.	Build the Responsive Schedule Course Sections .	Curriculum Director	Scheduling & Courses > Responsive Scheduling > Responsive Schedule Section Builder
9.	Determine if Responsive Scheduling information should be available in Campus Student and Campus Parent. If yes, mark the Display Option for Responsive Scheduling.	Campus Administrator/Tech Director	System Settings > Portal > Preferences > Display Options

Task		Responsible Staff	Location
10.	Request responsive day offerings .	Students	Campus Student Portal > Responsive Scheduling
11.	Schedule any students who are not scheduled for a session.	Curriculum Director	Scheduling & Courses > Load Schedules > Schedule Gap Filler

Daily processes, like recording attendance, viewing a student's schedule, etc., should be followed as if the responsive day or responsive course is a regular course.

- Responsive sessions do display on student schedules.
- Attendance can be recorded for responsive courses.
- Assignments and scores probably won't be created or assigned for responsive sessions, but they can be.
- Credits should not be entered for responsive courses, as these are usually just day-long events.
- Responsive courses do roll forward when using the Calendar Wizard.

Responsive Scheduling and State Reporting

It is recommended that responsive course sections should not be included in state reports. Depending on your state, verify that one or all of the following is done on your responsive course sections:

- The **Exclude from State Reporting** checkbox is marked on the [Course Information](#) editor for responsive courses.
- The **State Code** field on the [Course Information](#) editor is not populated for responsive courses.

Also consider that each teacher has a unique Section for every session, which could potentially have an impact the performance of certain reports. There are a number of fields on the Course Sections editor that are localized and need to be populated manually for every responsive course section.

For activities that occur very frequently (every day, for instance) or for courses that would always have the same subset of students, it is best to use a non-responsive course (standard course setup).

Responsive Scheduling Courses

Because there may be many course sections for each course on each responsive day throughout

the calendar year, a best practice is to create separate courses for each responsive day. That way, teachers have an easier time locating the appropriate course when creating offerings. This does not mean that for each course in your current course offerings, a responsive course will also be created. But do consider creating enough responsive courses to cover each responsive day that is being offered.

- Use a course numbering convention that makes it obvious that the course is a responsive course.
- Use a course naming convention that makes it obvious that the course is a responsive course.
- As noted above, mark these courses as Responsive, and when Attendance is being recorded, mark the course for Attendance.

Also be aware that responsive courses should not be included in state reports. See the [Responsive Scheduling and State Reporting](#) section for more information.

Course sections are not created until the Responsive Section Builder is used. When that is done, sections are listed on the Sections tool. Unlike other courses, there is no option to expand the courses in the search results to show existing sections; they are only visible from the Sections tool.

The screenshot displays the 'Course Information' and 'Scheduling' tabs for a course named 'EN6100 Language Arts 6 Intervention'. In the 'General Course Information' section, the 'Number: (Required)' field is set to 'EN6100' and the 'Name: (Required)' field is set to 'Language Arts 6 Intervention'. The 'Active' checkbox is checked. In the 'Scheduling' section, the 'Responsive' checkbox is checked. The 'Description' field contains the text: 'This course is intended for 6th grade continued academic support.'

Responsive Schedule Course Setup

In the above example, note that the Course Number begins with *EN*, the chosen numbering system for responsive courses. Also note, the Course Name end with *Intervention*, the chosen naming convention for responsive courses. This aids in searching for responsive courses, either by using the Course/Section quick search or by creating an Ad hoc filter that returns only responsive courses, as illustrated in the example below.

This is a Query Wizard filter built with the Data Type Course/Section.

*Query Name:

Find Responsive Courses

Sample Ad hoc Query for Responsive Courses

When assigning value for the filter, depending on your chosen method for labeling responsive courses, the easiest option is to set the Responsive field to a value True (the Responsive checkbox is marked on the Course editor). The operator for Course Number and Course Name can also be set to return values based on the chosen naming convention of those fields.

***Query Name:** Find Responsive Courses

Short Description:

Long Description:

Filter the data

ID	*Field	Operator	Value
1	courseInfo.courseNumber		
2	courseInfo.courseName		
3	courseInfo.responsive	= TRUE	

Add

Logical Expression (Optional):

If logical expression is left blank, all operators will be applied.
 Allowed symbols: AND OR NOT () IDs
 Example Syntax: (1 AND (2 OR 3) AND 4 AND (NOT 5 OR 6))

Display of Responsive Scheduling courses in other Scheduling & Courses tools

When a Responsive Schedule Period Setup exists, that period schedule displays in the **Scheduling Board**. However, no courses will be built or loaded into that period schedule. In the image below, the **Flex** period is a responsive period schedule that displays with slashes in gray.

Responsive Schedules in Scheduling Board

On the student's **Schedule**, Responsive Schedule courses display during the assigned Responsive Schedule period. Prior to the scheduled session, the course is displayed as active. Once the session has taken place, the course remains visible but is shown in a grayed-out state. Selecting the course opens additional details, including the course name, teacher, meeting time, location, and

course start and end dates. Because Responsive Schedule courses occur on a single day, the start and end dates are identical.

Filter		Settings

				Cellulare - FFT - 48 Staff: Charles Period: Flex - 10:09 AM to 10:49 AM Room: 0208 Start/Complete Start: 10/9/2025 Complete: 10/9/2025 Grades	

Responsive courses display as grayed out after they occur

In the **Walk-in Scheduler**, upcoming Responsive Schedule courses are displayed alongside other active courses on the student's schedule. After a course has been completed, the associated date is populated in the **End Date** field, and the course is dimmed to indicate that it has already occurred. This appearance is consistent with how completed Responsive Schedule courses are shown on the main view of the schedule.
