

Content Update for .2631

Last Modified on 07/30/2026 12:39 pm CDT

The Content Update page is designed to keep you informed about content published in the [Knowledge Base](#) for each Campus release. Please share this with others who may find it valuable.

Back-to-School Resources Homepage!

Get ready for the new school year with the [Back-to-school resources](#)! Designed as a one-stop hub for educators and staff, it features the [Beginning-of-year checklist](#) to help you complete key setup tasks, a collection of [release packs published since May](#) so you can catch up on the latest updates, and dedicated [teacher resources](#) to support classroom readiness. You'll also find guidance on [Campus Community access](#), a link to the [Tool Rights Catalog](#), and much more to help you start the year with confidence and stay informed throughout the transition back to school.

State to District Login

Product Path: User Management > Settings > State to District Login; User Management > User Account Administration > State to District Login

New State to District Login functionality has been added for state edition customers. This feature allow state users to enable login from the state edition to DIS-connected district editions via a special user group. State edition users can log in without needing to share logins or maintain separate district edition accounts. Their access to limited to Read-only (where supported by tool rights) and is more trackable than other homegrown solutions.

To enable State to District Login, a user at the state edition toggles the option on and adds district edition URLs to the State to District Login Administration tool and then creates a User Group with the State to District Edition checkbox marked and adds users to that group. Those users can then visit the State to District Login tool, where they can log in directly to district sites using an auto-generated State to District account.
