

My Courses - Start here

Last Modified on 08/26/2026 12:41 pm CDT

The [My Courses](#) tool allows staff assigned as primary or secondary teachers to review current assignments and request modifications to the district assignment associated with that section. Section staff can also review the current course section assignments to which they are assigned.

Getting started

- A teacher can request a change only if their [District Assignment](#) record includes a Title and has the Teacher checkbox selected.

How-to guides
