School Choice Applications - Start here

Last Modified on 10/26/2026 1:11 pm CDT

School Choice Applications is designed to support student assignment, where applications exist for a specific program (Overrides). This tool allows the user to enter and approve an application on behalf of a student. Users with appropriate rights are able to view a list of all school choice applications the student or the student's guardian has entered via the Campus Portal.

How-to guides
• Create School Choice Applications • Process a School Choice Application • Print School Choice Applications • Manage documents
