Technical Information

See the Technical Information - Release Pack Campus.2639 (https://kb.infinitecampus.com/help/technical-information-release-pack-campus2639) article for a list of schema changes in this release.

Academic Planning

Course Plan Templates display issue (SIS-195650)

An issue that was causing credit amounts in Course Plan Templates to display incorrectly has been resolved.

Path: Student Information > Program Administration > Academic and Graduation Programs

Batch Program Assignment Wizard cancellation update (SIS-201336)

An issue was discovered in which the Batch Program Assignment Wizard was updating records even when the process was cancelled. This has been corrected.

Path: Student Information > Program Administration > Batch Program Assignment Wizard

Activity Registration

Activity Registration transfer (SIS-197672)

Resolved an issue where students were unable to transfer to an activity if the student already had an in-progress registration for that activity. Activities (https://kb.infinitecampus.com/help/activity-monitor) with in-progress registrations can now be selected for transfers, with guidance provided if the registration must be removed first.

Path: Student Information > Activity Registration > Activity Monitor

Activity Roster displaying declined documents (SIS-200013)

Resolved an intermittent issue where a previously declined document could occasionally remain visible after a new approved document was uploaded for an activity (https://kb.infinitecampus.com/help/activity-monitor).

Path: Student Information > Activity Registration > Activity Monitor

Activity Registration Status Issue (SIS-201489)

Resolved an issue that prevented guardians from seeing and registering their students for activities in Campus Parent (https://kb.infinitecampus.com/help/tools-in-campus-parent) due to an incorrect status of 'In Progress'/'Not Complete' for a pre-requisite activity.

Path: Campus Parent > Activity Registration

Purchase button added for failed e-checks (SIS-201498)

Added the "Select Purchase Details" button for failed e-checks in Activity Registration (https://kb.infinitecampus.com/help/manually-add-students) so that new payments can be made.

Path: Student Information > Activity Registration > Activity Monitor

Activity roster loading performance (SIS-201717)

Resolved an issue where activity rosters (https://kb.infinitecampus.com/help/overview-of-activity-rosters) were taking longer than expected to load.

Path: Student Information > Activity Registration > Activity Monitor

Assessment

Legacy mapping compatibility restored (SIS-200542)

The Assessment Center (https://kb.infinitecampus.com/help/assessment-score-data-import) has been updated to properly read legacy mappings. This resolves an issue where the tool was unable to read old mappings following the Campus.2623 release.

Path: Student Information > Assessment Administration > Assessment Center

Specific year override logic updated (SIS-201542)

Updated Assessment Center (https://kb.infinitecampus.com/help/assessment-center) logic to save state edition scores only for years in which the student has an active enrollment record. When a specific-year override is applied, the system now excludes test scores from years with no corresponding student enrollment. This update applies to both manual score updates and Prism resyncs.

Path: Student Information > Assessment Administration > Assessment Center

Calendar

State to District URL removed when resyncing (SIS-201338)

The State to District URL was removed from the State to District Login Administration (https://kb.infinitecampus.com/help/enable-state-to-district-login) tool when a batch sync was performed through the Resync State Data tool. This has been corrected.

Path: System Settings > Data Interchange Administration > Resync State Data; User Management > Settings > State to District Login Administration

Campus Document Repository Services

Person picture request causing app server performance issues (SIS-201906)

An issue with person picture requests was causing performance issues on the app server. This issue was corrected.

Path: N/A

Campus Instruction

Section Summary Report - Multiple Sections (SIS-199967)

Previously, an error occurred when generating the Section Summary (https://kb.infinitecampus.com/help/section-summary-report) report for multiple sections that use composite grading for the same Grading Tasks. This has been corrected.

Path: Instruction > Reports > Section Summary

Teacher Attendance Performance (SIS-202083)

Additional improvements have been made to the performance of the Attendance (https://kb.infinitecampus.com/help/taking-attendance-with-the-roster) tool in Instruction, especially for users of Cross-Site Enrollment.

Path: Instruction > Students > Attendance

Converted Seating Charts (SIS-202180)

Previously, a conversion issue caused some teachers' seating charts (https://kb.infinitecampus.com/help/creating-seating-charts) to display in a compacted format, with desks overlapping. This issue occurred when a district moved from a Campus release prior to Campus.2619 to one after Campus.2623. With this fix, pre-existing charts are no longer compacted when a district takes a release after Campus.2623.

Path: Instruction > Students > Seating Charts

Census

Census - Photo Import (SIS-195468)

An issue occurring when trying to import a mixed-mode zipped file (https://kb.infinitecampus.com/help/photo-import) containing a photo for a student with a hyphenated or double last name has been resolved.

Path: Student Information > General Student Information > Photo Import

Census Address search order (SIS-197717)

The address search functionality (https://kb.infinitecampus.com/help/general-information-searching-in-campus) now returns results in the correct order. Extra spacing, or "white space" in address text, may continue to cause ordering issues.

Path: Census > Address Information > Search

Census by Birth Date Report - no results (SIS-200893)

The Census by Birth Date Report (https://kb.infinitecampus.com/help/census-by-birth-date-report) has been fixed.

Path: Census > Reports > Census by Birth Date Report

Centralized Cloud Services

Fix PDF rendering in Chrome (SIS-201500)

Some reports no longer render as PDF in Chrome when the Adobe extension is installed. This issue has been addressed.

Path: N/A

Classroom Integrations

LTI 1.3 - lineItem URLs (SIS-201512)

Previously, section-based LTI 1.3 (https://kb.infinitecampus.com/help/configuring-lti-connections-13) deep linking launches did not include the lineItem URL if an assignment did not have a title. This issue has been corrected so that lineItem URLs are included correctly.

Path: No specific path

LTI 1.3 - Assignment score flag logic (SIS-201941)

The LTI 1.3 (https://kb.infinitecampus.com/help/configuring-lti-connections-13) implementation has been updated to handle Missing flags on assignments in the same way that LTI 1.1 does. If a score is received for an assignment flagged as Missing, the Missing flag is removed and the assignment is flagged as Late instead.

Path: Instruction > Grades > Grade Book

Course or Section Setup

State Report Exclude option for Courses, Course Masters, Sections (SIS-165306) **[Enhancement]**

Previously, only certain states could mark a course as State Report Exclude on the Course Information (https://kb.infinitecampus.com/help/course-information1) tool. Courses marked with this checkbox were excluded from applicable state reports. This functionality remains unchanged for those states.

With this update, all states can now use the State Report Exclude option. In addition to courses, districts can also mark course masters (https://kb.infinitecampus.com/help/standards-course-masters) and sections (https://kb.infinitecampus.com/help/section-information-sections) as State Report Exclude.

To support state reporting requirements, the State Report Exclude checkbox is hidden by default when a district receives this update. Districts that wish to use the functionality must submit a Support Case to request that the checkbox be enabled.

After receiving a request, Infinite Campus will review the state's applicable reports and update them as needed to recognize the State Report Exclude setting before making the checkbox available.

Path: Scheduling & Courses > Courses > Course Information, Section Information; Grading &

Standards > Course Masters > Course Master Information

Course Master - Lock checkbox (SIS-198225)

The lock feature on the District-Defined fields of the Course Master (https://kb.infinitecampus.com/help/course-masters) was not retaining the checkbox selection when navigating away from the course and returning. This has been corrected.

Path: Grading & Standards > Course Masters

Course and Course Master fields (SIS-202252)

As a result of an earlier fix, some checkboxes on the Course and Course Master tools were erroneously marked, including Attendance, Active, Requestable, Required, and Transcript. This issue has been fixed, and data has been restored.

Path: Scheduling & Courses > Courses > Course Information; Grading & Standards > Course Masters > Course Masters

Custom

Custom attributes not being allowed for District Assignment (SIS-201531)

Users were unable to create custom attributes for fields in the District Assignment (employmentAssignment) screen. This issue was corrected.

Path: System Settings > Custom Data and Links > Custom Attribute/Dictionary

SSRS reports with multiple parameters not executing all parameters for Excel/CSV exports (SIS-201571)

SSRS reports set with multiple parameters failed to pull data for all parameters in the Excel or CSV export options. This issue was corrected.

Path: System Settings > Custom Data and Links > SSRS Report Configuration

Custom external URLs returning error (SIS-202003)

Custom external links were returning an error. This issue was corrected.

Path: System Settings > Custom Data and Links > Custom Tool Setup

Data Utilities

Deleted extract in Data Extract Utility still running (SIS-194881)

Deleted extracts in the Data Extract Utility failed to have their records removed from associated tables, causing the extract to continue running even after being deleted from the UI. This issue was corrected.

Path: System Settings > Data Utilities > Data Extract Utilities

DIS/SIF

DIS - SQL Syntax Errors in Form Table (SIS-197335)

A DIS syncing (https://kb.infinitecampus.com/help/syncing-data-between-district-and-state-edition) issue caused by apostrophes in Custom Forms data was fixed.

Path: No specific path

DIS – Performance Improvement (SIS-199786)

An issue causing disruptions during a state sync (https://kb.infinitecampus.com/help/syncing-data-between-district-and-state-edition) has been resolved.

Path: No specific path

Ed-Fi

Combine Person logic update for Ed-Fi IDs (SIS-156034) **[Enhancement]**

The Combine Person (https://kb.infinitecampus.com/help/combine-person-wizard) logic has been updated to properly handle Ed-Fi IDs when combining people.

Path: System Settings > Data Utilities > Combine Person Wizard

Ed-Fi - Add Ed-Fi Grading Period day triggers (SIS-168302)

Code related to the Ed-Fi Grading Period (https://kb.infinitecampus.com/help/core-ed-fi) data triggers in the Day table has been restored. This will ensure that changes to the Day table are properly reflected in Grading Period records.

Path: Reporting > Ed-Fi

Ed-Fi - Change triggers to use queries instead of IDs and dates (SIS-178827)

The database triggers for Ed-Fi have been updated to use queries on the Trial, Calendar, and SchoolYear tables instead of hard-coded IDs and dates to improve performance.

Path: Reporting > Ed-Fi

Ed-Fi Term Descriptor Override update (SIS-186608) **[Enhancement]**

Logic for the Ed-Fi Term Descriptor Override checkbox on a Course/Section (https://kb.infinitecampus.com/help/course-information1) has been updated so that when the checkbox is unmarked, the override mappings in the Ed-Fi Resource Preferences for the Course/Section are removed.

Path: Reporting > Ed-Fi

Ed-Fi - Remove the Ed-Fi Code Column from Campus Dictionary (SIS-198073) **[Enhancement]**

The Ed-Fi Code column in the Campus Dictionary table has been removed to improve system maintainability.

Path: System Settings > Custom Data and Links > Core Attribute/Dictionary

Ed-Fi – Update for multiple states to prevent sections from reporting when excluded (SIS-199222)

Updates have been made to prevent sections from attempting to report when a course is marked as State Report Exclude and lacks a state code. This update has been made for the following states:

- Arizona (https://kb.infinitecampus.com/help/arizona-ed-fi-1)
- Kansas (https://kb.infinitecampus.com/help/kansas-ed-fi-1)
- Michigan (https://kb.infinitecampus.com/help/michigan-ed-fi-1)

Kentucky – Transportation 2.0 conversion follow-up (SIS-200880) **[Enhancement]**

An update was made to the Kentucky Transportation 2.0 (https://kb.infinitecampus.com/help/transportation-20-kentucky) conversion script to address several issues. The conversion script now does the following when Transportation 2.0 is turned on:

- A new Transportation 2.0 record will be created for every Transportation record as long as it was active on or after the active year. Records are not converted for students with Enrollment records beyond the active year.
- Records will be converted for any student with an Enrollment record in the last five years.
- The conversion script retains the start and end dates from the original record in Transportation 2.0, but both Calendar and Enrollment dates are used in scenarios involving splits or gaps.
- When the calendar start date is used for the student's new Transportation 2.0 record start date, the calendar end date is also used for the Transportation 2.0 end date. Otherwise, the student's Transportation 2.0 dates should match their Enrollment Start and End Dates. When a Transportation 2.0 record was created for a future Enrollment, an End Date will not be entered.
- When a student has two Enrollment records but one Transportation record in the same calendar, a new Transportation 2.0 record will be created for each Enrollment with the same code.
- When a student has one Enrollment record but two Transportation records in the same calendar, two Transportation 2.0 records will be created, tied to the same Enrollment with distinct codes. The Transportation Start and End Dates will be used to determine the new records' dates in this instance.
- A default (NT) state reporting record will be created for any student with an Enrollment but no historic transportation record to convert.
- When there is a date gap between Transportation records but no gap in the Enrollment record for the same calendar, a default (NT) record will be created to fill the date gap.

Massachusetts – SIF end-of-year reporting updates (SIS-201546)

Regulated changes have been made to address issues with Massachusetts SIF (https://kb.infinitecampus.com/help/sif-massachusetts) end-of-year data reporting:

- The override field is no longer sent in addition to the section placement terms, which was causing duplicate term errors at the state. Now, either the override or the section placement terms will be sent, not both.
- The code for StaffAssignment has been updated to prevent the improper deletion of section records where all students have left the section before the state reporting date. The reporting date is now correctly set to the fall state reporting date of 10/1.

New Jersey

New Jersey – NJSLEDS-Student Course Data updated for standards-based courses (SIS-200280)

The logic for pulling elementary standards-based courses into the NJSLEDS Student Course Data (https://kb.infinitecampus.com/help/smart-student-course-data-extract-new-jersey) report has been updated. An elementary standards-based course is included in the report when:

- The Standard is configured as State Reported.
- The grade from the latest term in the course standards is reported; if there is no grade in the last term, it will report blank.

This update prevents grades entered for state-reported standards during multiple terms from causing the course to be reported multiple times. Instead, reporting follows the Term Mask configuration and generates the appropriate single course roster record for the selected reporting period.

New Jersey – Dictionary updates (SIS-201267)

Updated attribute/dictionaries to support accurate NJSLEDS SID Management reporting:

- Enrollment
  - endStatus
    - T6 changed to Transfer to a Juvenile Justice Commission
    - T10 changed to Transfer to a Juvenile Detention Center for incarceration
- Graduation
  - gradPathELA and gradPathMath
    - Changed NJGPA to NJGPA-A
    - Added NJGPA-A under the S acceptable value
- Graduation Seal
  - method: Added new values to World Language Assessment
    - AAPPL ASL
    - ASLT
    - NEWL
